Dear Shareholder,

We are pleased to invite you to attend Aecon's Annual Meeting of Shareholders on **Tuesday, June 6, 2023, at 9:00 AM (EDT)**, at its head office located at 20 Carlson Court, Suite 105 in Toronto, Ontario.

Aecon Today | Aecon's 2022 results were driven by record full-year revenue of \$4.7 billion, an 18 per cent year-over-year increase, and a balanced backlog, diversified across operating sectors. While overall profitability was impacted by four legacy projects,¹ execution and margin performance across the rest of the business was solid. Strong revenue growth, and new awards in the year of \$4.9 billion, were underpinned by a strategic focus on clean energy and decarbonization projects.

Our Projects | Aecon was pleased to be awarded contracts for major projects that were procured and will be delivered through more collaborative models than have traditionally been used, especially as these awards were for projects linked to the energy transition.

Building a Sustainable Future | Aecon continues its focus on achieving its greenhouse gas emissions reduction goals, including a 30 per cent reduction in Scope 1 and 2 CO₂ emissions by 2030 as compared to 2020 and net-zero by 2050, which are intensity-based targets based on economic output and represent tonnes of CO₂ per million dollars of revenue. In 2022, Aecon Sustainability Solutions was launched, establishing a single point of entry to its sustainability capabilities, and offering integrated project management throughout a project's lifecycle.

Continuous Board Renewal | We are excited to announce the nomination of Stuart Lee as a director. Stuart's background and experience in the energy and energy-related services and products industry make him a strong addition to the Board, and we look forward to his contributions.

Our People | Aecon's success is powered by the talent of its teams. Aecon continues to take steps across the organization to develop the careers of its people and help ensure that Aecon is equitable, diverse, inclusive, welcoming, and supportive.

Community Engagement | Aecon continues to take steps to help communities share in the benefits and opportunities associated with its work. In 2022, Aecon procured over \$200 million of goods and services from Indigenous vendors. Building on Aecon's inaugural Reconciliation Action Plan (RAP) released this past year, Aecon also looks forward to publishing its progress in collaboratively seeking meaningful ways to engage in reconciliation by working together with Indigenous Peoples.

Moving Forward | Aecon remains dedicated to the *Moving Aecon Forward Together 2022–2024 Strategic Plan* and its key focus areas designed to motivate a culture of safety, adaptive risk management, innovation, operational excellence, and continuous improvement while unlocking people's potential and executing targeted and disciplined growth. Moving forward with a substantial backlog in-hand, Aecon believes it is positioned to achieve further revenue growth over the next few years, supported by growing recurring revenue programs and ongoing recovery in airport traffic in Bermuda.

Whether you elect to make your vote count on the internet, by telephone, by proxy form or voting instruction form, or in-person at the Meeting, we look forward to your participation and thank you for your continued support.

Sincerely,

John M. Beck
Chair of the Board

Jean-Louis Servranckx
President and Chief Executive Officer

BENEFICIAL SHAREHOLDERS

What is a Beneficial Shareholder?

Non-registered Shareholders or “beneficial Shareholders” (a “**Beneficial Holder**”) are holders whose Common Shares are held on their behalf either: (i) in the name of an intermediary (an “**Intermediary**”) (including, among others, banks, trust companies, securities dealers, brokers and trustees or administrators of self-administered RRSPs, RRFs, RESPs, TFSAs and similar plans) that the Beneficial Holder deals with, or (ii) in the name of a clearing agency (such as the CDS Clearing and Depository Services Inc.) of which the Intermediary is a participant.

What is the Voting Process for Beneficial Holders?

Only proxies deposited by Shareholders whose names appear on the records of the Corporation as the registered holders of Common Shares can be recognized and acted upon at the Meeting. In accordance with the requirements of the Canadian Securities Administrators (“**CSA**”), the Corporation will have distributed copies of the Notice of Meeting, this Circular and the enclosed voting instruction form to the clearing agencies and Intermediaries for onward distribution to Beneficial Holders. **If you are a Beneficial Holder, your Intermediary will be the entity legally entitled to vote your Common Shares at the Meeting in accordance with your voting instructions. Common Shares held by an Intermediary can only be voted upon the instructions of the Beneficial Holder. Without specific instructions, Intermediaries are prohibited from voting Common Shares.**

A voting instruction form will be supplied to a Beneficial Holder by its Intermediary for the purposes of instructing the registered Shareholder how to vote on behalf of the Beneficial Holder. The majority of Intermediaries now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communications Corporation (“**Broadridge**”). Broadridge typically mails a scannable voting instruction form in lieu of the proxy form. Broadridge tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. The voting instruction form must be returned as directed by Broadridge well in advance of the Meeting to have such Common Shares voted.

Beneficial Holders should ensure that instructions respecting the voting of their Common Shares are communicated in a timely manner and in accordance with the instructions provided by their Intermediary or Broadridge, as applicable. Every Intermediary has its own mailing procedures and provides its own return instructions to clients, which should be carefully followed by Beneficial Holders to ensure that their Common Shares are voted at the

Meeting. Aecon may also use Broadridge’s QuickVote™ service to assist non-registered Shareholders with voting of their Common Shares. Kingsdale may contact non-registered Shareholders to directly obtain a vote over the telephone should Aecon engage their proxy solicitation services.

Pursuant to National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer* (“NI 54-101”), the Corporation is distributing copies of proxy-related materials in connection with the Meeting indirectly to Beneficial Holders and the Corporation intends to pay for the cost of delivery to objecting Beneficial Holders. The Corporation is not relying on the notice-and-access delivery procedure set out in NI 54-101 to distribute copies of proxy-related materials in connection with the Meeting.

How to Vote

A Beneficial Holder wishing to revoke or change their voting instruction should contact their Intermediary or Broadridge.

EXERCISE OF DISCRETION BY HOLDERS OF PROXIES

How your Proxyholder Will Vote

The proxy form and voting instruction form provided to Shareholders with the Notice of Meeting and this Circular provide Shareholders with an opportunity to specify that the Common Shares represented by the proxy form or

voting instruction form be voted “FOR”, “AGAINST” or “WITHHOLD” in accordance with the instructions given on such form in respect of the matters to be considered at the Meeting. On any ballot that may be called for, the Common Shares represented by proxies in favour of management nominees will be voted “FOR”, “AGAINST” or “WITHHOLD” from voting in respect of the election of directors, the advisory resolution on the Corporation’s approach to executive compensation (or “**Say-on-Pay Vote**”) and the appointment and remuneration of auditors, in each case in accordance with the voting instructions you provide on your proxy form.

In respect of proxies in which Shareholders have not specified the manner of voting, the Common Shares represented by proxies in favour of management nominees will be voted:

- **FOR the election of each of the proposed director nominees listed in this Circular;**
- **FOR the advisory resolution on the Corporation’s approach to executive compensation; and**
- **FOR the appointment of PricewaterhouseCoopers LLP as the Corporation’s auditors for the current fiscal year and authorizing the Board to fix their remuneration.**

The enclosed proxy form and voting instruction form confer discretionary authority upon the proxy nominees with respect to amendments or variations of matters identified in the Notice of Meeting or any new matters that are properly brought before the Meeting, or any adjournment or postponement thereof. As of the date hereof, management of the Corporation knows of no such amendments, variations or other matters to come before the Meeting other than the matters referred to in the Notice of Meeting. However, if any other matters, which are not now known to management of the Corporation, should properly come before the Meeting, the Common Shares represented by proxies in favour of management nominees will be voted on such matter in accordance with the best judgment of the proxy nominee.

SECTION THREE – MATTERS TO BE ACTED UPON AT THE MEETING

RECEIPT OF FINANCIAL STATEMENTS

The audited financial statements of the Corporation for the financial year ended December 31, 2022 and the report of the auditors thereon will be presented to the Shareholders at the Meeting.

MATTER 1: ELECTION OF DIRECTORS

The restated articles of incorporation of the Corporation provide for a minimum of eight and a maximum of fifteen directors. This year the Board has put forward 10 nominees for election as directors at the Meeting. The Board is pleased that Stuart Lee will be standing for election along with nine of the current directors. Mr. Lee's biography can be found below.

It is proposed that each person whose name appears below be elected as a director to serve until the close of the next annual meeting of Shareholders or until their office is earlier vacated in accordance with the by-laws of the Corporation. Management of the Corporation does not contemplate that any of the nominees will be unable to serve as a director, but should that occur prior to the Meeting, the persons named in the enclosed proxy form or voting instruction form reserve the right to vote for another nominee at their discretion.

Majority Voting for Election of Directors

Aecon's majority voting policy originally adopted in 2009 was repealed on April 25, 2023 as it is no longer needed. The new statutory voting requirement for uncontested director elections under the *Canada Business Corporations Act* allows Shareholders to vote "for" or "against" a director nominee in such an election, rather than "for" or "withhold" as was the case previously. A nominee must receive a majority of "for" votes to be elected to the Board. If a director nominee does not receive a majority of votes cast in favour of their election, they will not be elected. The seat will remain open, or, if the nominee is an incumbent, they may continue in office for 90 days following the vote or until a successor is appointed or elected, whichever is earlier.

Advance Notice By-law (By-law No. 2)

At the annual meeting of Shareholders held on June 29, 2017, Shareholders approved By-law No. 2 to provide that advance notice be given to the Corporation of Shareholder proposals relating to the nomination of directors. This by-law requires a nominating Shareholder to provide notice to the Board of proposed director nominations not less than 30 days prior to the date of the applicable annual meeting, or not less than 40 days in the event that the Corporation uses notice-and-access for delivery of proxy-related materials. This advance notice period is intended to give the Corporation and Shareholders sufficient time to consider any proposed nominees.

A copy of this by-law can be found on the Corporation's website at www.aecon.com/investing/investor-briefcase.

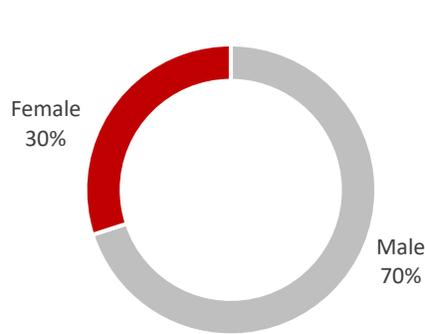

Board Nominees

The following summary sets forth relevant information for each person proposed to be nominated for election as a director. Certain information set out below with respect to a nominee for election as a director is not within the knowledge of the Corporation and was provided by the respective nominee individually. Information as to the number of DSUs and Common Shares beneficially owned, or over which control or direction is exercised, directly or indirectly, not being within the direct knowledge of the Corporation, has been furnished by the respective director nominees individually or obtained from the System for Electronic Disclosure by Insiders (“SEDI”) and may include Common Shares owned or controlled by spouses and/or children of such directors and/or companies controlled by the director nominees or their spouses and/or children.

Director Independence

National Instrument 58-101 – *Disclosure of Corporate Governance Practices (“NI 58-101”)* and National Policy – 58-201 - *Corporate Governance Guidelines (“NP 58-201”)* provide a series of CSA guidelines for effective corporate governance (collectively, the “**CSA Guidelines**”), including the criteria used in determining the independence of directors. The Board shall at all times be constituted of a majority of individuals who are independent within the meaning of the CSA Guidelines. Based on the information received from each director, the Board has concluded that all proposed directors, except John M. Beck and Jean-Louis Servranckx, are independent within the meaning of the CSA Guidelines.

80% of our nominated directors are independent.

As shown in the following table, 8 of 10 nominees for election to the Board are independent:

Director Attendance

The following table summarizes the attendance at Board and committee meetings held during 2022. The Board expects the directors to attend all meetings of the Board and Board committees upon which they serve, to come to such meetings fully prepared and to remain in attendance for the duration of the meetings. Consideration is given to the attendance record of directors in assessing the nominees for election as directors to ensure that directors are able to continue to devote sufficient time to the business and affairs of the Corporation. According to the Corporation's by-laws, the quorum for the transaction of business at any meeting of the Board is at least 50% of the directors. In 2022, a quorum was met at every Board meeting held.

⁽¹⁾ Jean-Louis Servranckx is a NEO (as defined hereinafter) and as such, his compensation is disclosed in the "Summary Compensation Table", below. He does not receive any additional compensation for his services as a director.

⁽²⁾ The share-based awards are DSUs granted pursuant to the 2021 Director DSU Plan (as defined hereinafter). Director DSUs for the 2022 fiscal year were granted on March 10, 2023, with a grant date fair value of \$115,000.

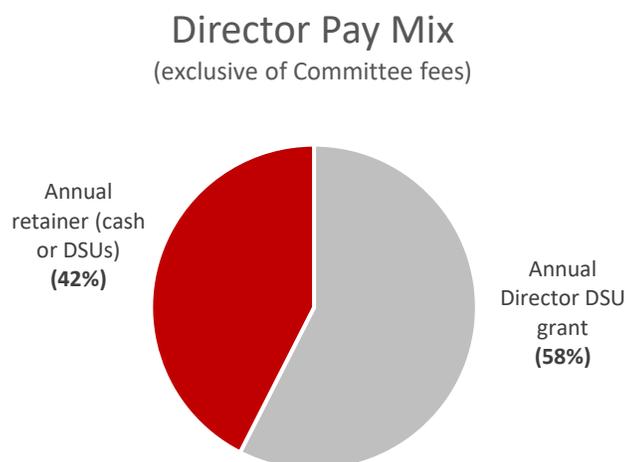

⁽³⁾ The Corporation established a pension plan in 2001 for John M. Beck, as Executive Chairman, to reflect then current executive compensation trends, as a reward for (at the time) over 40 years of service with the Corporation and its predecessors, and as an incentive for future long-term involvement with the Corporation. Entitlements under the plan are based on length of service from the date the plan was established and Mr. Beck's final average salary at the time he retired. An agreement was made between the Corporation and Mr. Beck to make pension contributions for an additional 36 months of service credited under Mr. Beck's defined benefit pension plan as a result of his retirement on December 31, 2019. The valuation method and significant assumptions used to determine the closing present value of Mr. Beck's pension plan are disclosed in the Corporation's Consolidated Financial Statements for the year ended December 31, 2022 filed on SEDAR (www.sedar.com) on February 28, 2023.

Director DSU Awards

The Board grants DSUs to non-management directors under a director deferred share unit plan in order to promote greater alignment of long-term interests between directors and the Shareholders.

2021 Director DSU Plan

In February 2021, the Board modified its director compensation program by replacing the 2014 Director DSU Plan (as defined below) with a director deferred share unit plan providing for settlement of DSUs in only cash (the “**2021 Director DSU Plan**”) for future grants.

The number of DSUs awarded to an eligible director is equal to the value awarded by the Corporation on an annual basis divided by the volume weighted average trading price of a Common Share on the TSX over the five consecutive trading days prior to the grant date. DSUs awarded to an eligible director can only be settled following the date the director ceases to serve on the Board, thereby providing the equivalent to an equity stake in the Corporation throughout the director’s term as a Board member. In addition to the discretionary award of DSUs, directors have an option to elect to receive 50% or 100% of their Board annual retainer fee that is otherwise payable in cash in the form of DSUs (the “**Elected DSUs**”). Elected DSUs are credited to directors semi-annually. The number of Elected DSUs received by a director for each semi-annual period in the year to which the election relates is equal to the portion of the annual retainer fee that would be payable to the electing director in respect of the semi-annual period that a director elects to receive in DSUs divided by the volume weighted average trading price of a Common Share on the TSX over the five consecutive trading days prior to the date received for that semi-annual period. DSUs granted to eligible directors on a discretionary basis are subject to vesting conditions, whereas elected DSUs are fully vested upon being credited to the director’s account.

About DSUs

- A DSU is a right to receive an amount of cash from the Corporation equal to the value of one Common Share upon a director’s retirement.
- DSU grants for directors are approved by the Board based on the recommendation of the CGNC Committee.
- The dollar amount awarded in DSUs is based on competitive and market conditions, including awards

granted to directors of other corporations of comparable size and complexity to the Corporation.

- Elected DSUs further align director performance with long-term Shareholder value.

The purpose of the 2021 Director DSU Plan is to assist the Corporation in attracting and retaining directors and to further align the interests between eligible directors and the Shareholders. DSUs do not entitle the director to any voting or other Shareholder rights. The Board may grant awards of DSUs from time to time to each director designated by the CGNC Committee as eligible to participate in the 2021 Director DSU Plan. In any particular year the Board may, in its sole discretion, determine not to make an award to a particular eligible director or to all eligible directors as a group. See “Matters to be Acted Upon at the Meeting – Election of Directors” for details on the amount of DSUs held by each of the directors under the 2021 Director DSU Plan and the 2014 Director DSU Plan.

An eligible director may redeem his or her DSUs under the 2021 Director DSU Plan following the date the director ceases to serve on the Board. An eligible director who redeems DSUs shall be entitled to receive a cash payment equal to the number of DSUs credited to the director’s account multiplied by the volume weighted average trading price of a Common Share on the TSX during the immediately preceding five consecutive trading days prior to the redemption date.

The rights of a participant under the 2021 Director DSU Plan are not transferrable or assignable other than by will or pursuant to the laws of descent and distribution.

2014 Director DSU Plan

The Board will not issue further DSUs under the director deferred share unit plan dated May 2014 (the “**2014 Director DSU Plan**”). The last award of DSUs under the 2014 Director DSU Plan was made on March 12, 2020. DSUs granted under the 2014 Director DSU Plan will continue to be governed by the terms of the 2014 Director DSU Plan.

The number of DSUs awarded to an eligible director under the 2014 Director DSU Plan was equal to the value awarded by the Corporation on an annual basis divided by the closing price of a Common Share on the TSX averaged over the five trading days prior to the date of the award. DSUs awarded under the 2014 Director DSU Plan vest on the first business day following the date the director ceases to serve on the Board. DSUs awarded under the 2014 Director DSU Plan do not entitle the director to any voting or other Shareholder rights. In addition to the discretionary share-based retainer in DSUs, under the 2014 Director DSU Plan, directors had an option to receive up to 40% of their Board annual retainer fee that was otherwise payable in cash in the form of DSUs, and the number of DSUs received by such electing director was equal to the value of the retainer fee that a director elected to receive in DSUs divided by the closing price of a Common Share on the TSX averaged over the five consecutive trading days prior to the date received. The Corporation maintains the option to settle Director DSUs by issuing shares from treasury or in cash or a combination of both.

The total number of Common Shares currently issuable pursuant to grants of DSUs previously made under the 2014 Director DSU Plan is 303,188 (0.49% of the Common Shares outstanding). Under the 2014 Director DSU Plan, an aggregate of 488,194 were granted to 12 current or former directors, each of whom were deemed at the time of the grant to be an insider of the Corporation.

The Corporation may, in its absolute discretion, elect one or any combination of the following payment methods for the DSUs credited to a participant’s account following the participant’s termination date: (a) pay cash, equal to the number of DSUs credited to the participant’s account multiplied by the fair market value of the shares, to the participant or the participant’s legal representative, as the case may be; (b) issue new Common Shares to the participant or the participant’s legal representative, as the case may be; (c) purchase Common Shares on the TSX through an independent intermediary for the account of the participant or the participant’s legal representative, as the case may be; or (d) provide notice in writing to the participant or the participant’s legal representative, as the case may be, as to the deferral of payment and as to the date such payment is actually to be made.

The Board may, without Shareholder approval, make any amendments to the 2014 Director DSU Plan including, but not limited to, those (i) necessary to ensure that the 2014 Director DSU Plan complies with applicable law and regulatory requirements; (ii) respecting administration of the 2014 Director DSU Plan and eligibility for participation;

(iii) concerning the addition of, and any subsequent amendment to, any financial assistance provision; (iv) that are of a “housekeeping” nature; or (v) that do not require Shareholder approval under applicable laws or regulatory requirements.

Notwithstanding the foregoing, certain changes to the 2014 Director DSU Plan will require Shareholder approval in accordance with the requirements of the TSX including, but not limited to: (i) any change in the definition of “Share Price” which would result in an increase in the value of DSUs; (ii) any change in the term of any DSUs; (iii) an amendment to the amending provisions of the 2014 Director DSU Plan so as to increase the Board’s ability to amend the 2014 Director DSU Plan without Shareholder approval; or (iv) an amendment that would permit DSUs to be transferrable or assignable other than for normal estate settlement purposes.

Except as required by law, the rights of a participant under the 2014 Director DSU Plan are not capable of being anticipated, assigned, transferred, alienated, sold, encumbered, pledged, mortgaged or charged and are not capable of being subject to attachment or legal process for the payment of any debts or obligations of the participant.

Director Share Ownership Policy

The Corporation believes that it is important for its directors to have a significant stake in the Corporation to align their interests with those of the Shareholders. The Corporation's Director Share Ownership Policy was introduced in March 2012, as amended, and requires that each non-management director hold no less than five times the director's annual retainer (excluding chair, lead director, and committee fees) in Common Shares or DSUs, such shares or DSUs to be owned within five years from the later of the policy's introduction or the date upon which the director joined the Board. In determining whether each director satisfies the threshold requirements of the Director Share Ownership Policy, the TSX closing price of the Common Shares as of the Record Date has been used. As of the date of this Circular and as outlined below, each director satisfies (or has time remaining to satisfy) the threshold requirements of the Director Share Ownership Policy.

See "Managing Compensation Related Risk – Senior Executive Share Ownership Policy" in Section Four of this Circular for further information.

MATTER 2: ADVISORY VOTE ON EXECUTIVE COMPENSATION (“SAY-ON-PAY VOTE”)

The Corporation’s compensation policies and procedures are based on the principle of pay for performance. The Board believes they align the interests of the Corporation’s executive team with the long-term interests of the Shareholders. The Board also believes that Shareholders should have the opportunity to fully understand the objectives, philosophy and principles used in its approach to executive compensation decisions and to have an advisory vote on the Board’s approach to executive compensation. This non-binding advisory Shareholder vote, commonly known as “Say-on-Pay”, gives each Shareholder an opportunity to either endorse or not endorse the Corporation’s approach to its executive pay program and policies through the following resolution:

“Resolved, on an advisory basis and not to diminish the role and responsibilities of the Board, that the Shareholders accept the approach to executive compensation disclosed in the management information circular delivered in advance of the 2023 annual meeting of Shareholders of the Corporation.”

The purpose of the Say-on-Pay vote is to provide appropriate director accountability to the Shareholders for the Board’s compensation decisions by giving Shareholders a formal opportunity to provide their views on the disclosed objectives of the executive compensation plans, and on the plans themselves, for the past, current and future fiscal years.

While Shareholders will provide their collective advisory vote, the directors remain fully responsible for their compensation decisions and are not relieved of these responsibilities by a positive advisory vote by Shareholders.

As this is an advisory vote, the results will not be binding upon the Board. However, the Board will take the results of the vote into account, as appropriate, when considering future compensation policies, procedures and decisions and in determining whether there is a need to significantly increase their engagement with Shareholders on compensation and related matters. The Corporation will disclose the results of the Say-on-Pay vote as a part of its report on voting results for the Meeting.

In the event that a significant number of Shareholders oppose the resolution, the Chairman of the Board, chair of the CGNC Committee and lead director of the Board (the “**Lead Director**”) will oversee a consultation process with the Shareholders, particularly those who are known to have voted against it, in order to better understand their concerns. The CGNC Committee will review the Corporation’s approach to compensation in the context of those concerns. Shareholders who have voted against the resolution will be encouraged to contact the Lead Director or the Chair of the CGNC Committee to discuss their specific concerns.

Following the review by the CGNC Committee, the Corporation will disclose to Shareholders a summary of the significant comments relating to compensation received from Shareholders in the process, a description of the process undertaken and a description of any resulting changes to executive compensation or why no changes will be made. The Corporation will endeavour to provide this disclosure within six months of the Say-on-Pay vote, and no later than in the management information circular for its next annual meeting.

The Board will review this policy annually to help ensure that it is effective in achieving its objectives.

The results of the Say-on-Pay advisory vote will be disclosed as part of the report on voting results for the Meeting. The Board is pleased that the Corporation’s Shareholders supported its executive compensation approach in 2021 by using their Say-on-Pay to vote 95.63% “FOR” and 4.37% “AGAINST” at the 2022 annual meeting of Shareholders.

THE BOARD RECOMMENDS A VOTE FOR THE CORPORATION’S APPROACH TO EXECUTIVE COMPENSATION, AS DESCRIBED UNDER “STATEMENT OF EXECUTIVE COMPENSATION” IN THIS CIRCULAR.

MATTER 3: APPOINTMENT AND REMUNERATION OF AUDITORS

The Shareholders will be asked at the Meeting to pass a resolution confirming the appointment of PricewaterhouseCoopers LLP, Chartered Accountants, of 18 York Street, Suite 2600, Toronto, Ontario, Canada M5J 0B2 as auditors of the Corporation for the financial year ended December 31, 2023 and authorizing the Board to fix the auditors' remuneration. PricewaterhouseCoopers LLP were the Corporation's auditors for the financial year ended December 31, 2022.

More detailed information respecting the Audit Committee and audit-related fees paid to the external auditors for the financial year ended December 31, 2022 can be found in the Corporation's Annual Information Form dated February 28, 2023 (Audit Committee – External Auditor Service Fees) which is available for review under the Corporation's SEDAR profile at www.sedar.com.

THE BOARD RECOMMENDS A VOTE FOR THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS AUDITORS OF THE CORPORATION FOR THE FINANCIAL YEAR ENDING DECEMBER 31, 2023 AND AUTHORIZING THE BOARD TO FIX THE AUDITORS' REMUNERATION.

SECTION FOUR – STATEMENT OF EXECUTIVE COMPENSATION

DEAR FELLOW SHAREHOLDERS,

As the Chair of the CGNC Committee of the Board, I am pleased to present to you the 2022 Statement of Executive Compensation and to highlight the performance metrics considered in determining 2022 incentive awards.

Guided by Aecon’s compensation philosophy and principles, the CGNC Committee seeks to help ensure alignment with stakeholder interests, motivate achievement of our strategy, foster adherence to our risk tolerance and drive sustainable growth. In this Circular, we aim to provide information to help you understand and evaluate our approach to executive compensation.

In the past, I have used this letter to discuss our compensation decisions in the context of corporate performance against strategic goals and future opportunities. While we continue to think about our business over the long-term, the last several years have been historically unprecedented.

In early 2020, the COVID-19 pandemic spread across the world which, along with the economic conditions that followed, had a significant impact on Aecon’s business operations throughout 2021 and 2022, notably from supply chain disruptions and other delays, cost inflation related to labour and materials and availability of labour. Although these factors impacted most of our projects to varying degrees, in many cases the impact was not significant or has now moderated or been mitigated. However, four large fixed-price legacy projects being performed by joint ventures in which Aecon is a participant have been disproportionately affected by the above-noted events resulting in additional costs that Aecon believes are out of scope and recoverable through claims. These four large projects experiencing similar impacts concurrently have elevated risks to our earnings, cash flow, liquidity and financial position.²

Notwithstanding the events described above, execution and margin performance across the balance of the Company’s portfolio of projects has been solid and underpinned by a strategic focus on clean energy and decarbonization initiatives. There continues to be strong demand for Aecon’s services across Canada and the Company believes it is well positioned for further revenue growth in the coming years.

tied to sustainability projects which are helping to preserve and protect the environment. These projects aid in emission reduction, support the transition to a net zero economy, support clean water use and conservation, and reduce or recycle waste. Aecon is a member of the Oneida Energy Storage Limited Partnership, a consortium that, in early 2023 entered into an agreement to deliver a 250 megawatt / 1,000 megawatt-hour energy storage facility in Ontario, currently representing the largest battery storage project in Canada and an important step toward a decarbonized energy grid.

In recognition of these efforts, Corporate Knights named Aecon one of the Best 50 Corporate Citizens and the North America Business Awards designated Aecon the Sustainable Infrastructure Company of the Year in 2022.

Focus

In order to build on our position, Aecon is constantly adapting.

In 2022 management launched a customized Gate Zero project risk assessment tool which helps provide heightened discipline in assessing and mitigating risk at the new project bid stage. We continue our efforts toward transitioning to more non-fixed price projects, which comprise 49% of revenue in 2022 compared to 39% in 2021. We are also forging more collaborative contracting models with our clients and establishing a backlog which is more diversified across sectors and project duration.

Early in 2023, we announced that we have entered into agreements to sell the Aecon Transportation East business and a minority interest in the L.F. Wade International Airport, consistent with Aecon’s goal of targeting prudent balance sheet leverage and liquidity, preserving capital for long-term growth and concession opportunities and reducing the overall capital intensity of Aecon’s business.

Successful delivery of essential infrastructure requires construction quality and efficiency in project execution. As a company we are equally focused on the additional benefits that infrastructure investments can help to deliver: supporting economic inclusion, building stronger communities, enhancing climate resilience and protecting the environment. In line with our corporate mission to build what matters to enable future generations to thrive, a growing share of our work is focused on decarbonization efforts and the transition to a net zero future.

Last year, we took an important next step in a journey of reconciliation with Indigenous Peoples through the development and publication of our first Reconciliation Action Plan.

Our Compensation Philosophy

95.63% FOR

2022

Consistent with prior years, Aecon's philosophy remains rooted in pay for performance. Our executive compensation program is designed to attract, retain and reward experienced executives with the skills and leadership qualities necessary to compete in the marketplace, develop and successfully execute against strategic objectives, deliver consistent financial performance and grow sustainable shareholder value.

Key elements of our executive compensation program include:

Fixed Pay	Pay at Risk	
Base Salary	Short-term Incentive	Long-term Incentive
Salaries reflect responsibilities and market trends	Based on a performance-linked Profit-sharing Pool (as defined hereafter)	Based on the performance and retention risk of our executives

The CGNC Committee is responsible for making compensation recommendations to the Board for the President & CEO and other NEOs. With support from an independent external advisor and input from management, the CGNC Committee undertakes the following process: (i) reviews compensation levels and mix in the context of each executive's role and the compensation of NEOs (defined below) of Aecon's peer group, (ii) establishes performance objectives and targets, (iii) assesses performance against objectives, and (iv) recommends pay outcomes for Board approval.

When executives assume additional responsibility and accountability in their roles, we remunerate them commensurately. Accordingly, in 2022, Messrs. Clochard and MacDonald were awarded an increase in compensation as a result of their promotion to Executive Vice President roles and the corresponding increase in the scope of their job responsibilities.

As noted above, four large fixed-price legacy projects have impacted Aecon's financial performance and results. The CGNC Committee has appropriately reflected the efforts expended in 2022 by the CEO and other NEOs to advance the resolution of outstanding claims relating to these legacy projects in its determination of incentive awards.

Over the course of 2022 and into the first half of 2023, Mr. Servranckx worked to advance the resolution of claims related to the four legacy projects. Strategic actions were concurrently undertaken to strengthen Aecon's balance sheet culminating in agreements to sell the Aecon Transportation East business and a minority interest in the L.F. Wade International Airport.

Aecon's Operating profit of \$97M in 2022 was impacted by operating losses of \$120M linked to the four legacy projects. As a result, and notwithstanding strong performance across other performance measures, Mr. Servranckx's total direct compensation was 14% lower in 2022 compared to 2021, reflecting our commitment to pay for performance and alignment between performance and shareholder value. A detailed description of our performance evaluation for Mr. Servranckx can be found on page 48.

The Path Forward

The last several years have been both challenging and rewarding. As we go forward, we remain focused on the four key priorities in our Business Plan: **taking care of our people; improving project efficiency and maximizing profitability; balancing agility and process; and investing in tomorrow's growth**. We will pursue future opportunities balancing growth and profitability and continue our risk reduction efforts through the pursuit of more collaborative contracting models.

Despite economic volatility, the Canadian infrastructure industry remains dynamic with commitments by provincial and federal governments and agencies to infrastructure investment in Canada across Aecon's focus areas. With a significant current backlog to execute on, we look forward to the opportunities that lie ahead.

We extend our sincere thanks to our employees for the work they do every day on behalf of the Company and our many stakeholders. And to you, our Shareholders, thank you for your continuing commitment and support.

Chair, Corporate Governance, Nominating and Compensation Committee

NAMED EXECUTIVE OFFICERS

For the financial year ended December 31, 2022, the Corporation had five Named Executive Officers (“NEOs”): (i) Jean-Louis Servranckx, President and Chief Executive Officer; (ii) David Smales, Executive Vice President and Chief Financial Officer; (iii), Thomas Clochard, Executive Vice-President, Civil & Nuclear; (iv) Eric MacDonald, Executive Vice-President, Aecon Utilities; and (v) Steve Nackan, Executive Vice President and President, Concessions. The objective of the below disclosure is to communicate to Shareholders the compensation that the Corporation paid to its NEOs for the financial year ended December 31, 2022, to provide insight into executive compensation as a key aspect of the overall stewardship and governance of the Corporation, and to inform Shareholders as to how decisions about executive compensation matters relating to the Corporation are made.

COMPENSATION COMMITTEE REPORT

The CGNC Committee has reviewed and discussed with management of the Corporation the following Compensation Discussion and Analysis. Based on that review and discussion, the CGNC Committee has recommended to the Board that the following Compensation Discussion and Analysis be included in this Circular.

COMPENSATION DISCUSSION AND ANALYSIS

Corporate Governance, Nominating and Compensation Committee

Composition

As of the date of this Circular, the CGNC Committee is comprised of four members of the Board, namely: (i) Susan Wolburgh Jenah (Chair); (ii) Anthony Franceschini; (iii) Monica Sloan and (iv) Deborah Stein, none of whom are eligible to participate in the Corporation’s executive compensation programs. No member of the CGNC Committee is an officer, employee or former officer or employee of the Corporation or any of its affiliates and each is considered “independent” of the Corporation within the meaning of the CSA Guidelines.

The CGNC Committee is responsible for oversight of the Corporation’s compensation plans, including conducting regular reviews of the Corporation’s compensation philosophy and developing and fostering a compensation policy that rewards the creation of Shareholder value and reflects an appropriate balance between short and long-term performance. With respect to compensation matters, the CGNC Committee makes recommendations to the Board on all aspects of executive compensation relating to the Corporation, particularly those regarding executive officers, including salary amount and compensation structure for executives and employees, bonus awards, and incentive plans and policies.

Executive Compensation Experience and Expertise of the CGNC Committee

Anthony Franceschini is the former President and Chief Executive Officer of Stantec Inc. and was instrumental in the growth of the company into a 10,000-person professional services firm. Susan Wolburgh Jenah served as the founding president and CEO of the Investment Industry Regulatory Organization of Canada and has years of experience serving on corporate and governing boards. She currently serves as a director of the Laurentian Bank of Canada and Hydro One Limited and is the former President and Chief Executive Officer of the Investment Industry Regulatory Organization of Canada (IIROC) and is ICD.D certified. Monica Sloan is the former Chief Executive Officer and Managing Director of Intervera Ltd. and has broad leadership experience. She also served as a director at Methanex Corporation from 2003 to 2016, serving as Chair of the corporate governance and nominating committee from 2010 to 2015, and is ICD.D certified. Deborah Stein has held senior leadership roles at Alta Gas Ltd., Wendy’s Restaurants of Canada, Paramount Canada’s Wonderland and TransCanada Corporation. She currently sits on the boards of NuVista Energy Ltd., Parkland Corporation, Trican Well Services Ltd. and the Ontario Teachers’ Pension Plan and is ICD.D certified. As such, each member of the CGNC Committee has significant experience and expertise in executive compensation.

Objectives of Executive Compensation Program and Strategy

The nature of the industry in which Aecon participates is centred on delivering successful projects to clients with positive financial results to the Corporation. The importance placed on performance and delivering positive financial results is woven through Aecon’s executive compensation philosophy, which ensures that total compensation for its

NEOs is competitive and directly linked to the actual performance results of both the individual officer and the Corporation. The objective of the Corporation's compensation policy is to attract, retain and motivate highly competent individuals who can ensure the current and long-term success of the Corporation. The Corporation's NEO compensation program is designed to reward NEOs for delivering positive financial results, which has the consequential effect of increasing Shareholder value, achieving superior corporate performance, improving operations and executing on corporate strategy. The same performance-driven results approach is taken by the Corporation with respect to the compensation of management personnel other than the NEOs.

The CGNC Committee and the Board, working together with management of the Corporation, have been successful in assembling an executive team that has developed the strategic priorities of the Corporation and have made progress towards achieving these objectives over the past several years. The CGNC Committee plays a key role in supporting the Board in its oversight of succession planning (see "Succession Planning" in Section Eight of this Circular) and formally considered succession planning at the executive management level in April 2023. At the corporate level, the CGNC Committee believes that Jean-Louis Servranckx, President and Chief Executive Officer, is ably backed by a strong team of executives.

Benchmarking

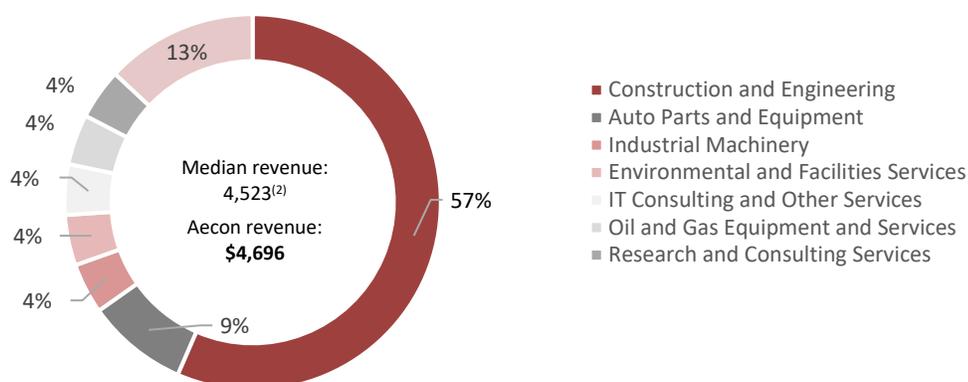

The CGNC Committee benchmarks both executive and director compensation against a comparator group (the "**Comparator Group**"), which is comprised of publicly traded companies that (i) are of comparable size, scope, market presence and/or complexity to the Corporation, (ii) overlap or are similar to the Corporation's operations, (iii) comprise the Corporation's primary competition for talent and for customers, and whose (iv) pay data is publicly available. Industries reflected in the Comparator Group include construction and engineering, industrial machinery, trading companies and distributors, consulting, research and other services, auto parts and equipment, oil and gas equipment and services, environmental and facilities services and transportation. The Corporation is approximately positioned slightly above median of the Comparator Group in revenue terms, which is mostly comprised of companies ranging from approximately one third to three times the size of the Corporation. The Corporation also assesses assets and market capitalization as secondary lenses through which to benchmark compensation. In October 2021, Meridian undertook a review of the Comparator Group to determine whether the Corporation's comparator companies continued to be relevant and appropriate and to affirm the underlying selection criteria used to select the Corporation's peers. Based on Meridian's recommendation, the Corporation retained its existing selection criteria and approach. The current Comparator Group was recommended by the CGNC Committee's independent compensation consultant, Meridian, and approved by the CGNC Committee in February 2022, taking into account the Corporation's direct competitors for executive talent. The Comparator Group includes high performance companies, market share leaders, innovators, and businesses with desirable cultures and recognized management talent. Some U.S. competitors are included in the Comparator Group in order to capture a sufficient number of companies of comparable size, complexity and pool of talent due to the limited number of comparable publicly traded construction and infrastructure companies in Canada. The Corporation does not target compensation to a particular level but looks at compensation levels of the Comparator Group as a reference in setting compensation.

The primary function of the Comparator Group is to provide the CGNC Committee with benchmarking data regarding executive compensation levels and the mix of fixed versus variable compensation. The CGNC Committee also considers the overall design of the Corporation's executive compensation programs in relation to the compensation practices of the Corporation's major privately-owned competitors. The same Comparator Group is also used for director compensation. See "Competitor Incentive Plans" in this Section Four for details regarding the Corporation's LTIP design in light of relevant industry trends.

The following table sets out the Corporation's 2022 Comparator Group companies:

Independent Advice

The CGNC Committee has retained Meridian as its independent compensation consultant since 2011 to provide independent advice to the CGNC Committee about director compensation, the Corporation's non-management director pay program, the composition of the Comparator Group, and the Corporation's executive compensation programs. Meridian does not provide any services to management of the Corporation.

Management of the Corporation retained Willis Towers Watson to provide ad hoc independent advice in connection with matters related to pension benefits and employee share ownership. All consulting and advisory services provided by, and fees paid to, compensation consultants at the request of management of the Corporation not related to executive compensation were pre-approved by the CGNC Committee.

Additionally, while Mercer Canada provides consulting services with respect to job structure and equity and compensation surveys, these services do not relate to compensation of any executive officers.

The table below reports the fees paid by the Corporation to independent compensation consultants in the 2022 and 2021 financial years. Other than the services described above with respect to compensation matters, no additional services were provided to the Corporation by independent compensation consultants. Meridian and Willis Towers Watson were each originally retained as an independent consultant in 2011.

MANAGING COMPENSATION RELATED RISK

General Compensation Policies and Practices

The CGNC Committee is actively involved in the risk oversight of the Corporation's compensation policies and practices and considers the implications of the risks associated with the Corporation's compensation policies and practices. Managing enterprise risk is embedded in all of the Corporation's key decisions and the Board directly approves all significant projects undertaken by the Corporation.

The Corporation uses the following practices to discourage or mitigate excessive risk-taking:

- the Board approves the Corporation's strategic business plan, financial and other targets and forecasts, which are considered in the context of assessing performance and awarding incentives, before the start of each year;
- the Risk Committee oversees the overall framework for managing project risks arising from the Corporation's operations and business it undertakes with clients and oversees the Corporation's enterprise risk management ("ERM") policies, programs, and practices;
- incentive awards for divisional employees are based on division-wide and company-wide actual financial results, personal performance and safety records and the Short-Term Incentive Plan ("STIP") pools are capped at a fixed percentage of operating profit;
- incentive awards for corporate employees are based on company-wide actual financial results and personal performance and the STIP pools are capped at a fixed percentage of the Corporation's earnings before taxes;
- there is a performance element of 12.5% of the STIP award for NEOs tied to a financial metric as well as personal performance;
- there is an appropriate mix of pay, including fixed and performance-based compensation with short and long-term performance conditions;
- the Corporation has share ownership requirements for NEOs and expressly prohibits hedging of Common Shares and hedging of share-based compensation awards;
- the Corporation has a clawback policy which allows it to require repayment of incentive compensation under certain circumstances (see "Clawback Policy" below);
- cash is not paid under the Corporation's annual incentive plans until achievement of the relevant financial results has been confirmed by the audited financial statements;
- the Corporation's performance-based long-term incentive programs include RSUs which vest over three years and DSUs which vest at the end of employment. The RSUs are granted annually with overlapping vesting periods. These programs ensure that executives remain exposed to the risks of their decisions and that vesting periods align with risk realization periods;
- the Corporation's Senior Executive Share Ownership Policy requires certain executive officers of the Corporation to hold two to five times their base salary in Common Shares, RSUs or DSUs as described in more detail under the heading "Managing Compensation Related Risk - Senior Executive Share Ownership Policy" in this Section Four;
- the Board is responsible for assessing and monitoring the Corporation's enterprise risks. Accordingly, the CGNC Committee has direct information respecting the Corporation's enterprise risk when making compensation decisions;

- the Audit Committee, the CGNC Committee, and the Risk Committee meet annually to confirm that the Corporation’s compensation plans align with the identified risks; and
- the CGNC Committee maintains overall discretion to adjust annual incentive payments to take into account both unexpected and extraordinary events.

Additionally, Meridian performs a periodic independent review of the Corporation’s compensation programs, plans and policies to assess whether these may create or encourage risks that are reasonably likely to have a material adverse effect on the Corporation. The compensation risk assessment was last performed in October 2022, with Meridian reporting to the CGNC Committee that in its view, (i) the Corporation adheres to disciplined and consistent processes in its short- and long-term incentive pay determination; and (ii) the likelihood of the Corporation’s plans or approach to pay-for-performance encouraging executives or employees to take excessive or ill-advised risks was low for several reasons. First, the Corporation has no executives or employees who receive commission-based compensation that may overly incent revenue generation. Second, the STIP pool calculation and allocations are weighted toward overall enterprise profitability rather than being heavily weighted towards small business unit profit which might create an incentive for inappropriate risk taking. Third, the direct connection between the Management Long-Term Incentive Plan (“**Management LTIP**”) unit value and medium- and long-term share price incentivizes long-term value creation rather than a focus on short-term gains. Pursuant to the CGNC Committee’s review of the compensation risk assessment, it has concluded that there are no identified risks arising from its compensation programs that are reasonably likely to have a material adverse effect on the Corporation.

Overview of Compensation and Risk Governance Policies at Aecon

The CGNC Committee has incorporated the following governance features into the Corporation’s compensation program:

WHAT WE DO	WHAT WE DON’T DO
<ul style="list-style-type: none"> ✓ Independent Consultant. Use external independent consultants to assess our executive compensation programs. ✓ Limiting Individual Bonuses. Limit individual bonuses to a pool that is funded by the Corporation’s profitability. This design ensures affordability and alignment between executives and Shareholders. ✓ Balancing. Enforce an incentive compensation clawback policy and forfeiture provisions. ✓ Implementing a Pay Mix. Offer a pay mix that emphasizes performance and pay at risk. ✓ Independence. Ensure that the CGNC Committee is comprised of independent members to avoid compensation-related conflicts of interest. ✓ Say-on-Pay. Allow hedging of the economic exposure of shares by all insiders, including directors and executives. ⊗ No Guarantees. Guarantee variable incentive payouts.

Clawback Policy

As part of Aecon's compensation framework for executives, which is intended to align compensation with the creation of long-term Shareholder value without encouraging excessive risk-taking, Aecon implemented and maintains a clawback policy (the "**Clawback Policy**"). Under the terms of the Clawback Policy, all bonuses and long-term incentive compensation awards (including unvested or deferred compensation) ("**Performance-Based Compensation**") granted to executive officers of the Corporation for the trailing 24 months are subject to clawback when (i) there is an error in the Corporation's reporting of its consolidated financial results, which leads to a restatement (other than a restatement caused by a change in applicable accounting rules or interpretations and other than a revision) of the consolidated financial results, (ii) an officer of the Corporation who was an executive officer in the year in respect of which the consolidated financial statements are subject to a restatement receives Performance-Based Compensation calculated on the achievement of those consolidated financial results, and (iii) the Performance-Based Compensation received would have been lower had such Performance-Based Compensation been based on such restated consolidated financial results. The Clawback Policy further provides that a clawback may be triggered if an executive officer of the Corporation has been found by the Board to have committed a material breach of the Corporation's Code of Ethics and Business Conduct (including any breaches of the Corporation's anti-corruption and anti-bribery policies or procedures) with respect to the Performance-Based Compensation attributable to the year in which the breach was found to have been committed.

In the event a clawback is triggered, the amount of clawback, if any, will be determined by the Board, taking into consideration the recommendations of the CGNC Committee. In making the recommendation, the CGNC Committee will take into consideration which executive officers of the Corporation, on an individual or group basis, will be subject to a clawback and to what extent such clawback will apply, taking into account the specific circumstances at hand.

If the Board determines to seek a recovery pursuant to the Clawback Policy, it will make a written demand for repayment from the executive officer of the Corporation and, if the executive officer does not within a reasonable period of time tender repayment in response to such demand, and the Board determines that he or she is unlikely to do so, the Board may seek a court order against the executive officer for such repayment.

Hedging Prohibition

The Corporation maintains a policy prohibiting executive officers of the Corporation and directors from, among other things, entering into speculative transactions and transactions designed to hedge or offset a decrease in market value of Common Shares or share-based incentive awards. Accordingly, executive officers of the Corporation and directors may not sell short, buy put options or sell call options on the Common Shares or purchase financial instruments (including prepaid variable contracts, equity swaps, collars or units of exchange funds) which hedge or offset a decrease in market value of the Common Shares.

Senior Executive Share Ownership Policy

The Corporation has a Senior Executive Share Ownership Policy pursuant to which the Corporation's senior executives are required to hold Common Shares, RSUs and DSUs with an aggregate value as follows:

Chief Executive Officer	5x annual base salary
Executive Vice Presidents	3x annual base salary
Senior Vice Presidents	2x annual base salary

This requirement must be within five years of appointment. Below is the share ownership status for our NEOs as of the Record Date:

ELEMENTS OF COMPENSATION

Total compensation for NEOs consists of four principal components: (i) base salary; (ii) incentive bonus awards pursuant to the STIP, linked directly to both the individual's performance and the Corporation's performance and financial results; (iii) equity participation pursuant to the Management LTIP; and (iv) pension and other benefits. Each component has a different function, as described in greater detail below, but all elements work together to reward the NEOs appropriately for individual and corporate performance.

In making compensation recommendations to the Board in respect of any financial year, the CGNC Committee reviews the financial results achieved by the Corporation and management's performance in achieving goals and strategic targets set by the Corporation from time to time. The individual performance factor for the CEO and CFO positions is based on an individual assessment reviewed and approved by the CGNC Committee. The CGNC Committee uses the individual assessment as a factor in evaluating the individual's performance against objectives and in setting compensation. In addition, the CGNC Committee and the Board maintain overall discretion to reduce or increase the size of the variable portion of total compensation for all NEOs in extraordinary circumstances.

The Corporation also offers competitive pension, benefits, and limited perquisites to promote the hiring and retention of qualified executives.

Four large fixed-price legacy projects being performed by joint ventures in which Aecon is a participant have been disproportionately affected by supply chain disruptions and other third-party delays resulting from the COVID-19 pandemic, inflation related to labour and materials and availability of labour and other issues resulting in additional costs that Aecon believes are out of scope and recoverable through claims. These four large projects experiencing similar impacts concurrently have impacted the Corporation's earnings, cash flow, liquidity and financial position as is described in more detail in Section 5 "Recent Developments", Section 10.2 "Contingencies" and Section 13 "Risk Factors" of the 2022 MD&A. Accordingly, the STIP Awards and Management LTIP Awards granted to the NEOs in respect of their performance in 2022 are reflective of these impacts as the Corporation has not made adjustments to the formula STIP or LTIP.

Base Salary

Base salaries are considered an essential element in attracting and retaining the Corporation's senior executives, including the NEOs. Base salaries for 2022 for Messrs. Servranckx, Smales and Nackan (who were NEOs in the prior year) were generally consistent with determinations made in previous years and with the findings of Meridian's executive compensation benchmarking report and were determined based on the skill, ability, experience and contributions of the individual executive, the need to attract and retain executives and recommended base salary ranges applicable to executive positions (from time to time, as appropriate, the CGNC Committee has engaged independent compensation consultants as an additional source of information in making its compensation recommendations). Base salaries of Messrs. Clochard and MacDonald, each of whom was elevated to an Executive Vice President position in 2022, and was assigned a commensurate increase in scope, were accordingly increased to reflect their new responsibilities. As most construction companies comparable to the Corporation are privately owned or are divisions of large public companies, there is limited publicly available comparative compensation information available in respect of base salaries to the CGNC Committee and the Board in order to assist them in determining levels of compensation for the NEOs. Notwithstanding the foregoing, the CGNC Committee believes that the base salaries of the NEOs are competitive with industry norms and consistent with public companies having comparable revenues to that of the Corporation. The CGNC Committee's executive compensation philosophy has been to reward the scope and responsibilities of the executive roles, having reference to the market median range of the Corporation's Comparator Group.

STIP Awards

The Corporation's performance-linked STIP is designed to reward eligible employees, including NEOs, for the achievement of critical financial metrics, safety objectives and individual performance during the previous financial year. The Corporation's STIP awards have both a corporate and an individual component.

Use of Supplementary Financial Measures in Determining STIP Awards

Throughout this Circular, we refer to various financial measures. Certain of these financial measures are calculated in accordance with Canadian generally accepted accounting principles ("GAAP"). However, there are other supplementary financial measures (the "Supplementary Financial Measures") including "Operating profit" and "Earnings before taxes" that are used for the purposes of establishing the Profit-sharing Pool (as defined below). The definition of Supplementary Financial Measures and an explanation of how we calculate these Supplementary Financial Measures as well as a reconciliation to Profit (being the nearest GAAP financial measure) can be found on

pages 4 to 5 and 18, respectively, of the 2022 MD&A, which is incorporated by reference herein and is available under the Corporation’s profile on SEDAR at www.sedar.com.

As part of the Audit Committee’s active oversight of the financial reporting process, it assesses management’s reasons for presenting non-GAAP financial measures and Supplementary Financial Measures and any adjustments thereto, as well as the transparency, comparability and consistency of public disclosure.

Decision-Making Process

The compensation process involves management, the CGNC Committee, independent compensation consultants and the Board for final approval. All compensation program design and pay decisions are made within the Corporation’s risk appetite.

How the Pool is Funded

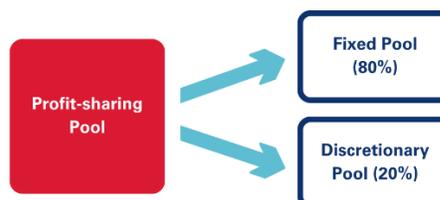

In connection with the Corporation’s STIP program, the CGNC Committee establishes a performance-linked profit-sharing pool (the “**Profit-sharing Pool**”) for employees. The Profit-sharing Pool is comprised of, and capped at, (i) 5% of the Corporation’s earnings before taxes and (ii) 18% of the Corporation’s operating profit, as illustrated below:

The Profit-sharing Pool, which is reviewed by the CGNC Committee and approved by the Board each year determines the total amount of profit available for distribution to the Corporation’s participating employees in respect of their performance in the relevant fiscal year. Neither the CGNC Committee nor the Board have authority to exercise discretion to increase the size of the Profit-sharing Pool.

The Profit-sharing Pool is Divided into Two Components

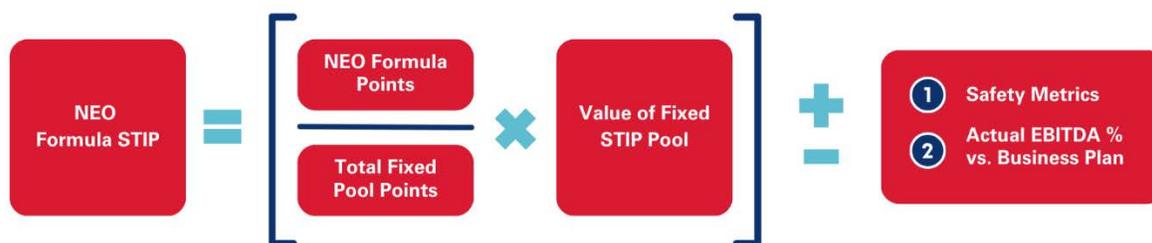

The Profit-sharing Pool is divided into the Fixed Pool and the Discretionary Pool, which comprise 80% and 20% of the Profit-sharing Pool, respectively.

How the Fixed Component of STIP Awards is Determined

Each employee is assigned a number of points based on bands, which are determined with reference to the impact, communication, innovation, risk, knowledge, skills and ability associated with the role (Mercer job factors). Each employee's formula points are then multiplied by point values to determine the quantum of the target annual bonus (the "Formula STIP").

Each NEO's Formula STIP is adjusted up or down at the discretion of the CGNC Committee, subject to Board approval to reflect achievement of the Corporation's financial targets and safety metrics, a key indicator widely used to measure operational performance in the construction industry. Adjustments are added back, or subtracted from, the Profit-sharing Pool.

- (1) A component of the NEO Formula STIP adjustment discussed above is determined in part based on Adjusted EBITDA margin, a non-GAAP financial measure that is defined on page 5 of the 2022 MD&A, which is incorporated by reference herein and is available under the Corporation's profile on SEDAR at www.sedar.com. Non-GAAP financial measures are not standardized financial measures under GAAP and might not be directly comparable to similar financial measures disclosed by other issuers.

How the Discretionary Component of NEO STIP Awards is Determined

Discretionary awards are assessed against the NEO's performance against goals that are tied to the financial and operating results of the NEO's business, strategic initiatives and contribution to the Corporation as a whole. In determining whether, and to what extent, a NEO merits an increase to his or her Formula STIP from the Discretionary Pool, the CGNC Committee considers qualitative and quantitative factors and components, including:

- Commitment;
- Safety performance;
- Sustainability performance (including the development or improvement of core competencies to take advantage of strategic opportunities related to sustainability);
- People management (including turnover, employee engagement rate, cultivation of a meaningful succession pipeline and support of the Corporation's diversity initiatives);
- Support of delivering the 2022 Business Plan;
- Support of delivering on the Strategic Plan;
- Innovative strategies or processes introduced in the subject year; and
- Other personal achievements in the subject year.

With respect to the President & CEO's STIP Award, the CGNC Committee evaluates Mr. Servranckx's performance based on demonstrated leadership behaviour and the comprehensive objectives set out in the CEO performance scorecard (the "CEO Performance Scorecard"). The CEO Performance Scorecard is reviewed and updated by the CGNC Committee on an annual basis, and progress against the established metrics is evaluated at half-year and year-end. The CEO Performance Scorecard is further discussed under "Compensation Review" below.

How Total STIP Awards are Determined

As has been described in greater detail above, the performance measures and weightings of the Corporation's Fixed Pool and Discretionary Pool are linked to strategy with business plan targets, recommended by senior management and reviewed and approved by the Board. The combination of formulaic and discretionary components of the STIP allow the Corporation to achieve a high degree of compensation consistency and predictability while also providing the CGNC Committee with the flexibility to make adjustments where appropriate in the best interests of the Corporation.

The CGNC Committee believes the current structure continues to attract and retain top talent and is aligned with Shareholders' interest in optimizing profitability. As illustrated in the Summary Compensation Table below, the STIP awards earned by Aecon's NEOs in 2022 were generally comparable to those earned in 2021, with the exception of Mr. Servranckx, whose at-risk compensation was lower than in 2021. See "Compensation Review - President's and CEO's performance in 2022" in this Section Four for further information about the CEO's performance.

Given the nature of its plan design, all employees, including the CEO and other NEOs, may receive zero bonus in a particular year under the formula described above.

Management Long-Term Incentive Plan

Competitor Incentive Plans

The CGNC Committee considers the competitive landscape of the Canadian and U.S. construction market, which is dominated by large private companies with straightforward equity plans that have been proven successful in attracting and retaining top talent. While the CGNC Committee monitors compensation design trends in the broader market, including the compensation levels (to the extent they are known or available) by functional business and title among the Corporation's privately-held competitors, its assessment of the Corporation's plan design is heavily weighted toward ensuring that the Corporation is able to effectively compete against large Canadian and U.S. private construction companies for the key personnel whose contributions drive the financial results of the Corporation. The CGNC Committee is satisfied that the design of the Corporation's compensation practices, and in particular the Management LTIP, described in detail below, have been effective in achieving that goal.

DSUs and RSUs

The DSU and RSU awards that Aecon grants under its Management LTIP are designed to (i) focus senior executives on the long-term financial performance of the Corporation, (ii) create a link between their time-based vesting period of 3 years and the duration of the Corporation's typical projects, (iii) serve as a retention tool for select executives by providing a financial disincentive for Management LTIP participants to leave the Corporation prematurely, and (iv) better align the interests of senior executives with those of Shareholders. The levels of DSU and RSU awards granted each year under the Management LTIP are based on the Corporation's performance and financial results over a rolling three-year period and performance of the senior executive and feature vesting periods that extend well into the future. DSUs and RSUs represent the right to receive one Common Share or the market value thereof in cash. Settlement of vested RSUs and DSUs in Common Shares is made by way of (i) the issuance by the Corporation of one Common Share for each RSU or DSU being settled in newly issued Common Shares as of the relevant settlement date, or (ii) the purchase on behalf of the participant (or his or her legal representative, as the case may be) on the relevant stock exchange through an independent intermediary of one Common Share for each RSU or DSU being settled in Common Shares bought on the open market as of the relevant settlement date. Settlement of vested RSUs and DSUs in cash is made by way of the lump sum payment of an amount equal to the fair market value

on the relevant settlement date multiplied by the number of RSUs and/or DSUs being settled in cash as of such settlement date.

	DSUs	RSUs
Settlement	Settlement of a participant's vested RSUs and DSUs may be in newly issued Common Shares, Common Shares bought on the open market, cash or any combination of such Common Shares and cash, as determined by the CGNC Committee.	
Eligibility	Limited number of senior executives and, on a limited and discretionary basis, other key employees.	
Funding/award Sizing	Management LTIP is funded with 10% of Aecon's average earnings before interest and taxes (EBIT) over three years prior to the date of grant.	
Allocation	50% DSUs and 50% RSUs until a specific ratio of DSUs to base salary (by title) is achieved, then 100% RSUs are granted above this threshold.	
Award determination	The number of DSUs and RSUs awarded is determined by dividing the participant's initial award, as determined by the CGNC Committee, by the fair market value of the DSUs or RSUs on the applicable award date. The fair market value is the volume weighted average trading price per Common Share on the TSX during the immediately preceding five trading days.	
Dividends	Awards previously granted will be credited with additional DSUs or RSUs, as applicable, for cash dividends paid with respect to the underlying Common Shares.	
Vesting	Senior executive retirement or certain cessations of employment described below.	Three equal annual installments commencing on December 1 of the year of grant unless otherwise specified in the Award Notice.
Termination scenarios for unvested equity	Resignation before age 56: DSUs are forfeited.	Resignation before age 56: Unvested RSUs are forfeited.
	Resignation after age 56 and before age 60: DSUs vest on a straight-line basis annually between ages 56-60 and fully vest after age 60.	Resignation after age 56 and before age 65: Unvested RSUs are forfeited.
	Death or retirement after 60: fully vest.	Death or retirement after 65: fully vest.
	Termination for Cause: DSUs are forfeited.	Termination for Cause: Unvested RSUs are forfeited.
	Termination without Cause: DSUs are vested and paid out.	Termination without Cause: Unvested RSUs are vested and paid out.
	Change of Control (as defined hereinafter): fully vest.	Change of Control: fully vest.
Total number of Common Shares issuable pursuant to each vehicle	2,289,028 (3.7% of issued and outstanding shares)	758,573 (1.2% of issued and outstanding shares)
Total number of Common Shares awarded pursuant to each vehicle	385,022 (0.6% of issued and outstanding shares) (actual granted to all eligible employees in 2022 was 385,022 and to NEOs was 83,231).	989,266 (1.6% of issued and outstanding shares) (actual granted to all eligible employees in 2022 was 989,266 and to NEOs was 357,617).
Number vested to Common Shares in 2022	184,944	671,269

The maximum number of Common Shares that may be issued pursuant to the Management LTIP and all other security-based compensation arrangements of the Corporation is 4.0% of the Corporation's total outstanding Common Shares. As a result, should the Corporation issue additional Common Shares in the future, the number of Common Shares issuable under the Management LTIP will increase accordingly. The Management LTIP is considered an "evergreen" plan, since the Common Shares covered by DSUs and RSUs which have vested shall be available for subsequent grants under the Management LTIP and DSUs and RSUs available to grant increase as the number of issued and outstanding Common Shares increases. No one participant may receive any award which, together with

all awards then held by such participant would permit such participant to be issued a number of Common Shares which is greater than 4.0% of the total outstanding Common Shares. The number of Common Shares that may be issued to insiders within any one-year period, or which may be issuable to insiders at any time, under all security-based compensation arrangements of the Corporation, shall not exceed 4.0% of the total outstanding Common Shares. The Corporation shall have no obligation to issue Common Shares in respect of any RSUs or DSUs under the Management LTIP and shall not issue Common Shares under the Management LTIP unless such issuance complies with applicable law, including the requirements of the TSX. The Management LTIP was last approved by shareholders at the annual meeting on June 8, 2021. The Corporation will subsequently be required to seek the approval of shareholders no later than June 8, 2024 with respect to the unallocated DSUs and RSUs under the Management LTIP.

For the purposes of the Management LTIP, “**Change of Control**” means any one of the following events: (a) the acquisition by any person or persons acting jointly or in concert, whether directly or indirectly, of voting securities of the Corporation which together with all other voting securities of the Corporation held by such persons, constitute 20% or more of the votes attached to all outstanding voting securities of the Corporation; (b) any business combination of the Corporation with another person which results in the holders of voting securities of that other entity holding 20% or more of the votes attached to all outstanding voting securities of the entity; (c) the sale, lease or exchange of all or substantially all of the property of the Corporation to another person; (d) the gaining of the ability of one or more other persons, acting jointly or in concert, directly or indirectly, to control the composition of the majority of the board of directors; or (e) the gaining of the ability of one or more other persons, acting jointly or in concert, directly or indirectly, to direct or cause the direction of the management, actions or policies of the Corporation.

The Board may, without Shareholder approval, amend, suspend or cancel the Management LTIP as it deems necessary or appropriate, provided that any approvals required under applicable law or stock exchange rules are obtained. No termination or amendment of the Management LTIP may adversely affect the rights of a participant with respect to any DSUs or RSUs which the participant has been granted. The Board may, without Shareholder approval, make any amendments to the Management LTIP including, but not limited to, those (i) necessary to ensure that the Management LTIP complies with applicable law and regulatory requirements; (ii) respecting administration of the Management LTIP and eligibility for participation; (iii) respecting the terms and conditions on which DSUs or RSUs may be granted; (iv) concerning the addition of, and any subsequent amendment to, any financial assistance provision; (v) that are of a “housekeeping” nature; or (vi) that do not require Shareholder approval under applicable laws or regulatory requirements.

Notwithstanding the foregoing, the following changes to the Management LTIP will require Shareholder approval in accordance with the requirements of the TSX: (i) any increase in the maximum number of Common Shares issuable from treasury; (ii) any change in the definition of “Fair Market Value” which would result in an increase in the value of DSUs or RSUs; (iii) any change in the term of any DSUs or RSUs; (iv) any amendment to the amending provisions of the Management LTIP so as to increase the Board's ability to amend the Management LTIP without Shareholder approval; (v) any change to the categories of individuals eligible to be selected for grants of DSUs or RSUs where such change may broaden or increase the participation of insiders under the Management LTIP; (vi) any amendment to remove or exceed the insider participation limits; or (vii) any amendment that would permit DSUs or RSUs to be transferrable or assignable other than for normal estate settlement purposes.

The assignment or transfer of unvested RSUs and DSUs, or any other benefits under the Management LTIP, shall not be permitted. Unless otherwise determined by the Board, the Management LTIP shall be unfunded.

In 2022, Management LTIP awards of the NEOs as a group decreased by 10.3% compared to 2021 reflecting the impacts of the four legacy projects on the financial performance of the Corporation in 2022. As noted above, Mr. Clochard's and Mr. MacDonald's LTIP awards increased as a result of their promotions and additional scope of responsibility.

Pension Plan Benefits

Defined Contribution Pension Plan

The Corporation provides a defined contribution pension plan (“**DCPP**”) to substantially all non-union employees, including certain executives and NEOs. The Corporation matches employee contributions based on a percentage of salary. Under the plan, once participants have reached six months of continuous service, the Corporation matches

each participant's contributions up to 5% of salary. These contributions are made up to the annual maximum as determined under the *Income Tax Act* (Canada) ("**ITA**"). All contributions vest immediately.

Funds are accumulated and invested in a personalized choice of investments under the participant's name. On retirement, the funds are used to purchase one of several types of financial instruments at the option of the participant. See "Compensation Review – Pension Plan Benefits – Defined Contribution Pension Plan" in this Section Four for details regarding awards to NEOs under the DCPD.

The Corporation also provides certain executives and NEOs with a defined contribution supplemental executive retirement plan ("**SERP**"). Under the SERP, once participants have reached the annual maximum pension contributions as determined under the ITA, contributions at the same rate as contributed to the DCPD are directed to each participant's SERP.

Other Pension Plan Contributions

In fiscal 2018, Mr. Servranckx was not eligible to participate in the DCPD. Prior to joining the Corporation in September, 2018, Mr. Servranckx served as the President and CEO of Eiffage Civil Works Division, now known as the Eiffage Infrastructures Branch. As a private sector executive in France, Mr. Servranckx was enrolled in a mandatory supplemental collective pension scheme in France in 2018. Generally, employees and executives from the private sector in France are required to contribute to a supplemental pension plan. The supplemental pension plans are grouped into two associations: (i) les régimes des cadres placés sous le contrôle de l'Association générale des institutions de retraites des cadres ("**AGIRC**"); and (ii) les régimes des salariés non cadres regroupés au sein de l'Association des régimes de retraites complémentaires ("**CFE**"). The Corporation continued to make contributions on behalf of Mr. Servranckx to his AGIRC and CFE supplementary plans in 2022.

Mr. Clochard participated in AGIRC and CFE since joining the Corporation in November 2019 through December 2021 and the Corporation continued to make contributions on behalf of Mr. Clochard to the AGIRC plan during that time, limited to the maximum 5% of the annual base salary that the Corporation would have contributed to the Canadian DCPD had Mr. Clochard participated in that plan. From January 2022, Mr. Clochard has participated in the Canadian DCPD. See "Elements of Compensation – Pension Plan Benefits – Defined Contribution Pension Plan" in this Section Four.

EXECUTIVE COMPENSATION AND SHAREHOLDER ENGAGEMENT

The Board's interest in Shareholder engagement regarding executive compensation is a fundamental and long-standing aspect of the Board's fiduciary oversight responsibility. The Corporation's senior management, under the guidance of the CFO and the SVP, Corporate Development and Investor Relations, is principally responsible for day-to-day Shareholder communications, and together with the CGNC Committee, for strategic and ongoing Shareholder engagement on this issue. Enquiries, questions, and concerns from Shareholders are addressed promptly by the Investor Relations group in a manner that is consistent with the Corporation's disclosure policies and procedures and are reported to the CGNC Committee and the Board, as appropriate. For the Corporation's approach to addressing the Say-on-Pay concerns specifically, please see "Matter Two: Advisory Vote on Executive Compensation ('Say-on-Pay' vote)" in Section Three of this Circular. The Corporation also has an active marketing campaign to meet with institutional investors throughout the year, primarily through non-deal roadshows and at scheduled industry conferences and events.

During fiscal 2022, based on the consultation and feedback described above, there have been no concerns or complaints received by the Corporation from Shareholders in respect of the Corporation's approach to executive compensation.

COMPENSATION REVIEW

President's and CEO's performance in 2022

Aecon uses a CEO performance scorecard to provide the CGNC Committee with a structured framework to evaluate Mr. Servranckx's performance and accomplishments against pre-established metrics and targets while also applying necessary judgment to arrive at the final performance assessments.

In 2022, the CGNC Committee assessed Mr. Servranckx's performance at an overall rating of "on target," noting that Mr. Servranckx demonstrated strong stewardship of Aecon through the continuing challenges related to the four legacy projects while effectively executing on Aecon's strategy, including significant preparatory efforts in 2022 in respect of the now announced divestitures of the Aecon Transportation East business and a minority interest in the L.F. Wade International Airport in Bermuda. While Mr. Servranckx's performance was on target with his performance scorecard described in more detail below, the impacts of the four legacy projects on the financial performance of the corporation resulted in a 22.2% reduction in his STIP Award and a 14.9% reduction in his Management LTIP Award compared to 2021.

President and CEO Look-Back Table and Equity Holdings

The following table compares the total direct compensation awarded to the Corporation's President and CEO over the past five years, as reflected in the Summary Compensation Table, to the compensation value (both realized and realizable) as at December 31, 2022 unless otherwise specified in this Circular. Compensation outcomes are set against the performance graph below which compares the yearly cumulative shareholder return on a \$100.00 investment in the Common Shares against the cumulative return for \$100.00 on the S&P/TSX Composite Total Return

Index for the same five-year period, on the first day of the five-year period beginning on December 31, 2018, and ending December 31, 2022. It assumes reinvestment of all dividends during the covered period.

CEO Realizable Pay and Performance

Aecon pays its executives for performance. Since a large portion of executive pay is provided in the form of equity compensation, the total compensation disclosure in the Summary Compensation Table does not reflect fluctuations in equity value realizable by executives, which ultimately aligns executive compensation outcomes with Shareholders' experience.

As a result, the CGNC Committee believes it is important to assess Aecon's performance against realizable pay, relative to its compensation peers, taking into account share price and the intrinsic value of equity compensation at a set point in time. In April 2023, the CGNC Committee engaged Meridian to review the relationship between Aecon's CEO realizable compensation and the Corporation's performance over a three-year look-back period of 2019-2021, relative to compensation peers. This review:

- ✓ Allows the CGNC Committee to assess whether the Corporation's compensation programs are operating as intended
- ✓ Supports additional disclosure in this Circular
- ✓ Compares how "value" is shared between management and shareholders, in relation to the Corporation's peers

The results of this review, summarized in the chart below, indicate very strong alignment of the CEO's realizable pay and the Corporation's composite financial performance through December 31, 2021.

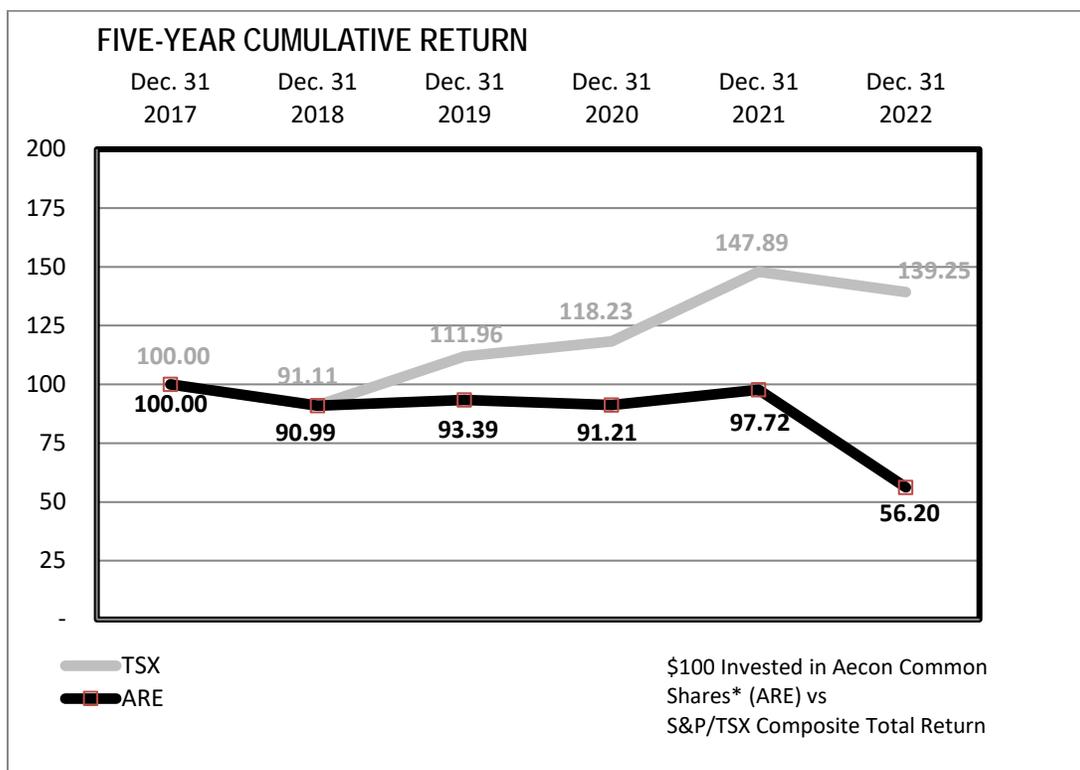

Over the three-year period, the mix of realizable pay for the CEO differs from that of the Corporation’s peer group with a higher proportion of performance-based compensation (including STIP and LTIP awards) and less base salary, furthering alignment of CEO pay with shareholder value.

The CEO realizable pay/realized performance analysis will be performed in alternating years going forward.

Performance Graph

The following graph compares the cumulative shareholder return for \$100.00 invested in Common Shares against the cumulative return for \$100.00 on the S&P/TSX Composite Total Return Index for the same five-year period, on the first day of the five-year period beginning on December 31, 2017 and ending on December 31, 2022.

	2018	2019	2020	2021	2022
Aecon⁽¹⁾	90.99	93.39	91.21	97.72	56.20
S&P/TSX Composite Total Return Index	91.11	111.96	118.23	147.89	139.25

⁽¹⁾ Includes share price plus dividends, if any. The closing price of the Common Shares on the TSX on December 30, 2022 was \$9.11 per share. All share prices for the above table were obtained from the records of the TSX.

As noted in the graph above, in the period December 31, 2017 to December 31, 2022 the Corporation's total shareholder return ("TSR") decreased by approximately 44% while the S&P/TSX composite index increased by approximately 39% during the same period. The Corporation's dividend has increased by 48% in the same period.

As noted in "Compensation Discussion and Analysis" in this Section Four, Aecon's executive compensation is directly linked to the performance of individual officers and the performance and financial results of the Corporation. Individual awards under the Management LTIP are awarded on the basis described in this Section Four under "Long-Term Incentive Plan" and detailed herein. The value of a Management LTIP award (an RSU or DSU) after grant will fluctuate based on the Corporation's share price, thereby aligning the interests of NEOs with those of Shareholders available for review under the Corporation's SEDAR profile at www.sedar.com.

SECTION EIGHT – CORPORATE GOVERNANCE MATTERS

The Board is committed to fostering a healthy governance culture at the Corporation. The Corporation believes that such culture requires that directors be aware of both internal corporate and external developments that may affect the business and affairs of the Corporation and that an atmosphere of open communication, trust, candour, healthy debate and constructive dissent be part of the corporate decision making and directorial oversight process. Although mindful of evolving views with respect to governance issues, the Board believes that formulaic or structural approaches to corporate governance issues may not in and of themselves be adequate or ensure best in class governance standards. The Board examines each issue on a case-by-case basis and, in consultation with senior management of the Corporation and the Corporation's advisors, adopts the standard or approach it believes best protects and promotes the interests of Aecon, including its stakeholders. As members of an experienced Board, the directors are cognizant that they have statutory and fiduciary obligations to act honestly and in good faith with a view to the best interests of the Corporation. They also have a duty of care in making decisions, including a duty to be properly informed so they can perform the tasks their positions entail. The Board demands that these standards be met by its members at all times. The Board believes that its principled approach to corporate governance meets these standards.

The Corporation's corporate governance practices are designed to help ensure that the business and affairs of the Corporation are effectively managed so as to promote and enhance shareholder value. The Board has historically been actively involved in many aspects of the Corporation's business, a trend that continued throughout 2022. Management of the Corporation has been able to draw assistance from individual Board members, as well as seek advice from the Board as a whole or from the independent directors collectively or individually, when appropriate.

Over the past several years, both management of the Corporation and the Board have closely monitored and, where appropriate, responded to Canadian regulatory developments aimed at improving corporate governance, increasing corporate and individual accountability as well as maximizing the transparency of public company disclosure.

Under the CSA Guidelines, the Corporation must disclose on an annual basis and in prescribed form, the corporate governance practices that it has adopted. The Corporation's annual disclosure of its corporate governance practices in accordance with Form 58-101F1 – *Corporate Governance Disclosure* under NI 58-101 is attached to this Circular as Appendix 1.

The Corporation is also subject to the requirements of Canadian provincial securities legislation, including those relating to the certification of financial and other information by the Corporation's President and Chief Executive Officer and Chief Financial Officer; oversight of the Corporation's external independent auditors; enhanced independence criteria for Audit Committee members; the pre-approval of permissible non-audit services to be

performed by the Corporation’s external independent auditors; and the establishment of procedures for the anonymous submission of employee complaints regarding the Corporation’s accounting practices (the “Whistleblower Policy”).

ENTERPRISE RISK MANAGEMENT

Management of the Corporation has developed a disciplined and integrated ERM process which identifies potential events that may affect the Corporation, manages risk to be within the Corporation's risk appetite and provides reasonable assurance regarding the achievement of the Corporation's objectives.

In support of ERM, the Corporation has put in place formal policies which address project selection, contract terms, cost controls, project controls, selection of joint venture partners and negotiation of joint venture agreements, impact and delay claims, third party liability and regulatory matters.

Management of the Corporation believes that everyone in the Corporation has a degree of responsibility for ERM. The Project Review Committee, chaired by the President and Chief Executive Officer, meets weekly to vet significant projects prior to bid pre-qualifications and bid submissions. The Operational Risk Committee provides additional focus on cost and schedule risk associated with major projects or projects with higher risk profiles. The Commercial Risk Committee reviews the most significant risks of major projects from a multi-disciplinary perspective prior to review by the Project Review Committee. The Executive Committee meets bi-weekly to discuss key strategic issues, financial performance, operation issues and safety matters and to review the progress of major projects. The Executive Committee also conducts quarterly financial review meetings with operating leaders to monitor the financial results and leading indicators across the Corporation. The Executive Operations Team meets quarterly to review financial performance, major projects and key opportunities. The Disclosure Committee meets at a minimum quarterly to review continuous disclosure obligations and documents. The Risk Committee of the Board meets at a minimum quarterly and oversees the Corporation's ERM policies, programs and practices. In addition to the formal processes described above, divisional and risk teams provide ongoing support for major projects and all personnel are expected to execute ERM in accordance with established directives and protocols.

BOARD OVERSIGHT OF RISK

As part of its oversight duties, the Board examines current conditions such as the macroeconomic environment, size, nature and unique characteristics of the construction and infrastructure development industry, geographic markets and the basis, size and strength of the Corporation's competition on an ongoing basis.

The Board, working closely with management of the Corporation, also identifies, categorizes, analyses and prioritizes risks. To assist the Board, management has compiled a list of over 110 risks that the Corporation faces across twelve categories, including: financial, hazard, strategic, operational, human resources, third party liability, environmental health and safety, governance, information technology, policy and reputational and climate change risks. Additionally, management of the Corporation has developed a detailed colour-coded heat map used to pictorially prioritize risks along the lines of severity, likelihood and ability to mitigate. The heat map ranks uncontrolled and residual risks according to severity.

The Board also plays an active role in determining risk capacity, risk tolerance and risk appetite by (i) assessing the Corporation's balance sheet and quantifying the Corporation's debt capacity; (ii) assessing the Corporation's strength and position within its industry; and (iii) considering the desired rate of return on a particular project or transaction.

The Corporation, overseen by the Board, has implemented a number of proactive strategies to mitigate risk, including developing a sound succession plan, carrying appropriate levels of insurance, vetting all major projects and subcontractors, limiting major capital expenditures and limiting major contracts to highly credit-worthy parties. The Corporation's Bidding Requirements Policy establishes the framework for the review and approval of projects and strategic partners to ensure that proposal teams carry out an appropriate level of commercial, legal and risk review. The Corporation's Operational Risk Committee meets monthly to discuss the current status of significant ongoing projects. The Corporation's Project Review Committee meets weekly to identify risks and vet major projects prior to bid pre-qualifications and bid submissions. The Corporation's Commercial Risk Committee reviews the most significant risks of major projects from a multi-disciplinary perspective prior to review by the Project Review Committee. Because a significant proportion of the Corporation's revenue is derived from major projects that must be approved by the Board, the Board is responsible for approving projects that comprise the Corporation's main revenue source. The Board also receives regular reports from members of the Executive Committee, which meets bi-weekly to discuss key strategic and business issues and opportunities, financial performance and results, operational issues, key business services and safety matters.

The Risk Committee, created by the Board in 2015, provides greater focus and oversight of the above-described risk programs. It oversees general enterprise risk and compliance initiatives and procedures of the Corporation to manage the significant risks to which the Corporation is exposed and monitors and reviews the Corporation's risk management performance, ethics, governance and compliance. The Risk Committee also oversees the Corporation's sustainability matters, including the disclosure in the annual Sustainability Report and the climate-related risks and opportunities as outlined in the recommendation of the G20 Financial Stability Board's Task Force on Climate-related Financial Disclosures and the Corporation's progress towards its target to reach net-zero CO₂ emissions by 2050. The Risk Committee is also responsible for the oversight of the Corporation's social risks and opportunities, particularly those which may impact the Corporation's business and strategic objectives.

CODE OF ETHICS AND BUSINESS CONDUCT

The Corporation first adopted its Code of Ethics and Business Conduct in 2002 to guide behaviour related to company business and to help ensure that Aecon maintains the standard of a highly ethical and professional public corporation. The Code of Ethics and Business Conduct supports Aecon's corporate values, specifically to "preserve the highest standards of honesty, integrity and business ethics; promote equality of opportunity and cultural diversity within the Corporation; ensure safety in all our activities; foster protection of the environment; and maintain an open, empowering and rewarding workplace" and set out fundamental principles that guide the Board in its deliberations and shape the Corporation's business activities. The Code of Ethics and Business Conduct was most recently updated in February 2022. As of 2015, each officer and employee of the Corporation is required to complete, when they join Aecon and on an annual basis thereafter, a Code of Ethics and Business Conduct online training module within the sphere of Aecon University, the Corporation's learning vehicle for delivering professional development and training opportunities. New employees must review the Code of Ethics and Business Conduct and acknowledge adherence to it when they join the Corporation. Moreover, directors of the Corporation are required to provide, on an annual basis, a Certificate of Acknowledgment and Compliance with the Code of Ethics and Business Conduct. The Code of Ethics and Business Conduct is available for review under the Corporation's SEDAR profile at www.sedar.com.

Management of the Corporation, under the direction of the Board, has undertaken a number of initiatives to promote ethical behaviour by its employees including email updates regarding key policies, new employee seminars on key corporate policies (including the Code of Ethics and Business Conduct and Whistleblower Policy), anti-corruption and anti-bribery measures, including a quarterly certification requirement for all projects outside of Canada and a certification requirement for all foreign projects, and holding an annual company-wide Safety Day. First introduced in October 2005 to reinforce to all employees, clients and stakeholders the importance of safety as a core value of the Corporation, Safety Day is a company-wide event in which all employees of the Corporation watch a "tool box" video talk by the President and Chief Executive Officer on safety issues and are reminded of the

importance of safety in their day to day activities. Since 2015, Safety Day has been extended from a single day event to a week-long Safety Week.

The Board monitors compliance with the Corporation's policies through Financial Assurance and Compliance Interim Reports prepared by the internal audit team and provided to the Audit Committee on a quarterly basis. In addition, as part of compliance with National Instrument 52-109 – *Certification of Disclosure in Issuers' Annual and Interim Filings*, the Corporation has developed a system of sub-certification pursuant to which key financial and business unit leaders are asked to verify compliance with a range of key metrics including compliance with the Code of Ethics and Business Conduct. The Chief Financial Officer provides a report to the Board in respect of such matters on a quarterly basis.

WHISTLEBLOWER POLICY AND AECON ETHICS HOTLINE

In May 2005, the Corporation approved its Whistleblower Policy to support the Corporation's continued commitment to honesty and integrity in the conduct of its business. The Whistleblower Policy has been updated several times since its initial adoption, and most recently in February 2021 with a view to continuing to meet best practices. The Whistleblower Policy is available for review under the Corporation's SEDAR profile at www.sedar.com. Among other features, the Whistleblower Policy provides a mechanism for anonymous complaints to be made directly to the Chair of the Audit Committee or the General Counsel, Public Company & Corporate Secretary or via Aecon's Ethics Hotline – an anonymous reporting line managed by an independent third party. For additional information, see "Culture of Integrity" set out in the Board Mandate attached to this Circular as Appendix 2. To reinforce the importance of ethical behaviour and enhance internal controls, in April 2009 the Corporation introduced a "Reporting Internal Suspicions of Fraud Policy".

DISCLOSURE COMMITTEE

The Disclosure Committee meets at least quarterly and more often if required to discuss disclosure issues. The quarterly meeting typically involves a page-by-page review of the applicable management's discussion and analysis and financial statements and is attended by members of the Disclosure Committee who are responsible for the preparation of the documents. The Disclosure Committee also reviews the Corporation's annual information form and management information circular. The public disclosure documents filed under the Corporation's SEDAR profile reflect the consensus of such meetings. See "Shareholder Engagement" below for additional information.

In 2022, 95.63% of the votes cast voted for the Corporation's 2021 executive compensation program. The CGNC Committee reviewed the results of the Say-on-Pay vote and concluded that no significant changes to the Corporation's approach on executive compensation are required at this time. The CGNC Committee reviews the Corporation's executive compensation program to help ensure its effectiveness and further align the interests of the Corporation's executives with its Shareholders.

The CGNC Committee and the Board also reviews and considers all Shareholder feedback related to compensation matters and Shareholder discussion and engagement. Shareholders are invited to contact the Corporation by using the contact information set out in "Shareholder Engagement" in Section Eight of this Circular. Please refer to page 28 of this Circular for additional information on the Say-on-Pay Vote.

FINANCIAL ASSURANCE AND COMPLIANCE DEPARTMENT

The Corporation's Financial Assurance and Compliance ("**FA&C**") department was established to provide an independent and objective assurance, consulting and advisory function that is designed to add value, improve the Corporation's operations, and assist management of the Corporation in the effective discharge of its responsibilities. Currently, the main focus of the FA&C department is to manage compliance with Bill 198 (*Keeping the Promise for a Strong Economy Act (Budget Measures)*, 2002), assist senior management of the Corporation in the testing of internal controls over financial reporting ("**ICFR**") and provide added assurance and comfort to the Chief Executive Officer and Chief Financial Officer of the Corporation as part of their certification on the design and operating effectiveness of ICFR. In addition to this assurance function in support of the regulatory certification process, the

FA&C department also assists management of the Corporation in examining, evaluating, reporting and recommending improvements to strengthen the effectiveness of internal controls, risk management and governance processes. Other responsibilities include reviewing the Corporation's compliance with policies, procedures, laws and regulations, and performing advisory services as requested.

MANDATE OF THE BOARD

The mandate of the Board is to supervise the management of the business and affairs of the Corporation by its executive officers and includes, without limitation, the following duties, and responsibilities, as outlined in the Board Mandate or by the Board's general authority to supervise the management of the business and affairs of the Corporation:

A copy of the Board Mandate is attached to this Circular as Appendix 2.

COMPOSITION OF THE BOARD

The Board is currently comprised of nine members. The directors include community and business leaders active at the local, national, and international level who provide a depth and range of experience. Please see the biographies of individual directors under "Election of Directors" in Section Three of this Circular. Assuming that each of the Board nominees identified in this Circular is elected at the Meeting, the Board has determined that 8 out of 10 (80%) of the directors will be considered "independent" under the CSA Guidelines and NI 52-110. To assist the Board with its determination as to independence of its members, all directors complete a detailed annual questionnaire regarding their relationships with the Corporation. The Board believes that a sufficient number of directors are independent of the Corporation, as no material corporate decision requiring director approval can be passed without the approval of the independent directors. Notwithstanding that Mr. Beck and Mr. Servranckx are deemed to be not "independent" pursuant to the CSA Guidelines, the Board believes that their status did not preclude them from exercising independent judgment with a view to the best interests of the Corporation. See "Board Committees" below for additional information.

Position Descriptions

The Board is led by the Chairman and is comprised of experienced directors (see "Election of Directors" in Section Three of this Circular for additional information), whose authority is exercised in accordance with the Corporation's Articles of Incorporation, By-Laws and Corporate Governance Handbook, the *Canada Business Corporations Act* as well as other applicable laws, regulations, and rules, including those adopted by the CSA and those of the TSX.

Chief Executive Officer

The Chief Executive Officer of Aecon has full responsibility for the day-to-day activities of the Corporation's business in accordance with its strategic plan as approved by the Board. The Chief Executive Officer is accountable to the Board for the overall management of Aecon and for conformity with policies agreed upon by the Board. The approval

of the Board (or appropriate committee) is required for all significant decisions outside of the ordinary course of Aecon's business. The position description for the Chief Executive Officer is attached to the 2011 management information circular which is available for review under the Corporation's SEDAR profile at www.sedar.com.

On an annual basis, the Chief Executive Officer of the Corporation circulates to the Board a proposed strategic plan and forecast which are discussed and, if appropriate, adopted by the Board. See "Strategic Planning" in Section Eight of this Circular. These plans form the basis of the corporate objectives that must be met by the Chief Executive Officer. The CGNC Committee reviews the performance of the Corporation, and the Chief Executive Officer which review is used by the CGNC Committee in its deliberations concerning the Chief Executive Officer's annual compensation. See "Statement of Executive Compensation" in Section Four of this Circular.

Committee Chair

Each of the Audit Committee, the CGNC Committee, the EHS Committee and the Risk Committee is chaired by an independent director (each a "**Committee Chair**"). The Committee Chairs are responsible for the management and the effective performance of their respective committees. The Board has developed a mandate for each Committee Chair which also includes taking all reasonable measures to ensure that the respective committee fully executes its mandate, including taking all reasonable steps to ensure that such committee works as a cohesive team and arranging for the availability of adequate resources and access to information and management to support the committee's work. A copy of the Mandate of the Committee Chairs can be found at Appendix 3 of this Circular.

Lead Director

During the first quarter of 2020, the Board approved amendments to the mandate of the Lead Director in light of the appointment of Mr. Beck to the role of Chair of the Board. The Board determined that to the extent the Chair of the Board is deemed to not be independent, the Corporation will maintain a Lead Director position whose primary function is to facilitate the functioning of the Board and its exercise of independent judgment in carrying out its responsibilities.

In fulfilling their responsibilities, the Lead Director (i) may chair meetings, including in circumstances where there is a potential conflict of interest involving the Chair of the Board; (ii) will serve as the independent contact for directors, organizes the agenda for, and chairs the meetings of, the independent directors, and (iii) together with the chair of the CGNC Committee, will lead the annual assessment process for the Chair of the Board.

Board Committees

The Board has established four standing committees of directors: the Audit Committee, the CGNC Committee, the EHS Committee and the Risk Committee. Each committee meets at least once per quarter before regularly scheduled Board meetings and sets aside a portion of these meetings to meet without the presence of management of the Corporation and non-independent directors. All members of each of the Audit Committee, the CGNC Committee, the EHS Committee and the Risk Committee, including the respective chairs, are "independent" within the meaning of the CSA Guidelines and NI 52-110.

You can find the Board Committee Charters, Board Mandate, Board Committee Chair Mandate and Position Descriptions for the Chair of the Board and the Lead Director, and Board Committee Chair Mandate posted in the investor briefcase section of Aecon's website at:
<https://www.aecon.com/investing/investor-briefcase>.

From time to time, special committees of the Board may be and have been appointed to consider special issues and in particular, any issues that may involve related party transactions. Individual directors may retain outside advisors at the Corporation's expense in appropriate circumstances and with the approval of the Audit Committee. No material corporate decision or decision involving a potential conflict of interest can be approved by the Board without the approval of the independent directors.

Corporate Governance, Nominating and Compensation Committee

The mandate of the CGNC Committee includes overseeing the Corporation's overall corporate policy related to compensation and benefits, developing an effective corporate governance system for the Corporation, reviewing

and assessing the Corporation's corporate governance practices and public disclosure on an ongoing basis, reviewing the Corporation's compensation policies and programs to ensure that they motivate an appropriate level of risk-taking and mitigate excessive risk-taking, identifying and recommending candidates for election to the Board and all committees of the Board, organizing and overseeing the Corporation's director education program and establishing and reviewing succession planning for the Chief Executive Officer and other senior executives. The CGNC Committee also engages external advisors from time to time, as the CGNC Committee deems appropriate, to discuss the Corporation's compensation policies and programs and corporate governance practices.

As of the date of this Circular, the CGNC Committee is comprised of Anthony Franceschini, Susan Wolburgh Jenah (Chair), Monica Sloan and Deborah Stein, all of whom are considered independent within the meaning of the CSA Guidelines. The Chief Executive Officer of the Corporation does not participate in the selection of members of the CGNC Committee.

Current members of the CGNC Committee are all senior business leaders and executives with several years of compensation and human resources experience. Accordingly, the Board believes that the members of the CGNC Committee, collectively, have the knowledge, experience, and background to fulfill its mandate.

The CGNC Committee met seven times in fiscal 2022.

Audit Committee

As of the date of this Circular, the Audit Committee is comprised of Anthony P. Franceschini, J.D. Hole and Deborah Stein (Chair), all of whom are considered to be "independent" and "financially literate" within the meaning of NI 52-110. The Corporation believes the oversight function of the Audit Committee provides a key stewardship role in the Corporation's financial disclosure issues, internal controls, financial and operational risk management, corporate finance, and related matters.

The Audit Committee's mandate is to assist the Board in monitoring the integrity of the Corporation's financial statements, the compliance by the Corporation with applicable legal and regulatory requirements relating to audit and internal controls, the independence, qualifications and performance of the Corporation's external auditors, and the Corporation's internal controls and audit function.

The Audit Committee met four times in fiscal 2022.

Environmental, Health and Safety Committee

As of the date of this Circular, the EHS Committee is comprised of J.D. Hole (Chair), Scott Thon, Eric Rosenfeld and Monica Sloan. The Corporation believes the mandate of the EHS Committee provides an important leadership role in supporting the Corporation's core value of "safety first". The overall purpose of the EHS Committee is to support continuous improvement of healthy and safe workplaces, founded on the principles that the effective management of health, safety, wellness and concern for the environment (collectively "EHS") are essential to the success of the Corporation.

The EHS Committee is responsible for reviewing and approving the Corporation's annual EHS Strategic Plan and on a quarterly basis reviewing and assessing the Corporation's EHS performance. The EHS Committee is also tasked with reviewing corporate governance principles relating to a sound EHS system comprised of strategies, programming, and performance of the Corporation from time to time to ensure compliance with changing regulatory requirements and best practices. In addition, the EHS Committee plays a key role in providing continuing education of EHS issues, best practices, legal and regulatory requirements, and trends to the Board.

The EHS Committee met four times in fiscal 2022.

Risk Committee

In January 2016, the Board established a new Risk Committee. As of the date of this Circular, the Risk Committee is comprised of Scott Thon (Chair), Susan Wolburgh Jenah and Eric Rosenfeld, all of whom are considered independent within the meaning of the CSA Guidelines. The Risk Committee's mandate is to oversee the framework for managing of project risks arising from the Corporation's operations and business and review and monitor the Corporation's ERM policies, programs, and practices, including cyber risk, ethics, governance, compliance, business continuity and

emergency preparedness, all of which are described in more detail in the Corporation's 2022 MD&A under "Risk Factors."

The Risk Committee met nine times in fiscal 2022.

MEETINGS OF INDEPENDENT DIRECTORS AND IN-CAMERA MEETINGS

The independent directors met at minimum on a quarterly basis during the 2022 financial year and an in-camera session was held at every Board meeting. All members of the Audit Committee, CGNC Committee, EHS Committee, and Risk Committee are independent. An in-camera session is held at every Board committee meeting.

INDEPENDENCE OF CHAIR AND LEAD DIRECTOR

The Chairman of the Board, John M. Beck, is not considered independent of the Corporation within the meaning of the CSA Guidelines and NI 52-110. The Lead Director as of the date of this Circular, Anthony P. Franceschini, is considered independent of the Corporation within the meaning of the CSA Guidelines. In the event of a vote of the Board that is tied, neither the Chairman of the Board nor the Lead Director is entitled to an additional or tie-breaking vote.

BOARD INTERLOCKS

The CGNC Committee has reviewed the membership of Aecon's nominees to the Board on the boards of other reporting issuers. No two nominees to the Board are members of the same board of directors of another reporting issuer. As such, no independence issues arise from Board interlocks.

DIRECTOR OVERBOARDING

In 2019, the Board adopted a formal director overboarding policy (the "**Overboarding Policy**"). Pursuant to the Overboarding Policy, prior to nominating any director for election to the Board, the CGNC Committee will consider a number of factors to determine whether the proposed director's outside commitments lead to a conclusion that such director will not be able to devote sufficient time and focus to their duties as a director, including the number of other boards of directors (public, private and non-profit) on which the candidate serves. In addition, in making any determination as to whether a director candidate is overboarded for purposes of the Overboarding Policy, the CGNC Committee will take into account proxy advisory guidelines, the views and guidelines of institutional investors and prevailing best practices among Canadian and U.S. public companies.

Pursuant to the Overboarding Policy, current members of the Board are required to notify the Corporation when such member has been extended an offer of a directorship on a new board of directors of a public or private company or a non-profit organization, of which such director was not previously a member. As of the date of this Circular and pursuant to the Overboarding Policy, the CGNC Committee has determined that no director nominee is overboarded.

In 2022, Mr. Rosenfeld received 78.41% shareholder support, reflecting some concern respecting his commitment as a director and executive of other public companies. Mr. Rosenfeld retired from the board of directors of CPI Aerostructures, Inc. in February 2023, no longer serves as an executive of Legato Merger Corp. II, and has maintained 100% meeting attendance in 2022, reflecting his continued commitment to the Corporation.

BOARD ANNUAL REVIEW AND SUCCESSION PROCESS

Director and Board Performance Assessment

In 2012, the Board instituted a formal assessment process, conducted annually or biennially, with respect to the effectiveness of the Board and its committees, and the performance and contribution of individual directors, which includes a biennial peer review. In 2013, the Board introduced an annual formal feedback process consisting of one-on-one meetings between the Chairman of the Board and each director. Assessment of the Board consists of a survey, which is approved by the Chair of the CGNC Committee, and the biennial assessment of directors consists of a peer evaluation, which is based on a questionnaire approved by the Chair of the CGNC Committee. The evaluations

ask questions about what was done well and what could be done better and cover Board and committee structure and composition, Board leadership, strategic planning, risk management, operational performance and Board processes and effectiveness. In addition, as part of the review process each committee biennially evaluates its effectiveness in carrying out the duties specified in its charter. The results of the Board evaluation are analyzed and reviewed by the Chairman of the Board and Chair of the CGNC Committee (except for the peer evaluation results in respect of the Chairman of the Board, which are reviewed by the Chair of the CGNC Committee), who considers whether any changes to the Board's processes, composition or committee structure are appropriate. Additionally, senior management of the Corporation is advised of any suggestions made by directors for enhancement of processes to support the work of the Board, which senior management takes into consideration to improve such processes.

Director Term Limits

The Board believes that the advantages that accrue from experience and long service on the Board need to be balanced against the benefits of renewal. Accordingly, in March 2015 the Board adopted term limits for its independent directors (the "**Director Term Limit Policy**"). Pursuant to the March 2015 version of the Director Term Limit Policy, no candidate will be appointed as an independent director to the Board on or after January 1, 2016 if he or she has completed 15 years of continuous service on the Board or has reached 75 years of age. On a case-by-case basis, and on the recommendation of the CGNC Committee, the Board may, in exceptional circumstances and to further the best interests of the Corporation, extend a director's term.

During the first quarter of 2019, the CGNC Committee undertook a review of the Director Term Limit Policy, taking into consideration actual experience administering the policy since its adoption as well as current governance practices, market trends and the potential value provided by Aecon's directors above or approaching 75 years of age. The CGNC Committee further considered the presence of a robust and comprehensive Board and peer review process at Aecon as an effective means to ensure appropriate Board renewal. Following its review, the CGNC Committee determined that continued adherence to the age limit would restrict experienced and potentially valuable board members from service through an arbitrary means, which may not necessarily correlate with returns or benefits for shareholders and, therefore, did not align with the Board's interest in balancing experience with renewal. Rather, the CGNC Committee undertook to perform an annual review of the Board's overall composition, including its diversity of skill sets, the alignment of the Board's areas of expertise with the Corporation's strategy, the Board's approach to corporate governance, and its stewardship of company performance. In March 2019, the Board, upon the recommendation of the CGNC Committee, approved the removal of the age limit restriction in the Director Term Limit Policy while retaining the 15-year term limit (applicable to independent directors) under the Policy.

NOMINATION OF DIRECTORS

The CGNC Committee is responsible for identifying and recommending candidates for election to the Board and all committees of the Board. As part of its mandate with respect to nominating functions, the CGNC Committee is responsible for: (i) developing the criteria, profile and qualifications for new nominees to fill vacancies on the Board and recommending same for approval of the Board; (ii) identifying, interviewing and recruiting new nominees to fill vacancies on the Board as may be required; (iii) recommending for the approval of the Board the nominees to stand for election as directors at each annual meeting of Shareholders or otherwise to be appointed by the Board to fill any vacancy on the Board from time to time; (iv) reviewing and recommending to the Board for approval, the need, composition, membership and chairmanship of all committees of the Board, ensuring they are comprised of entirely independent members; and (v) establishing an orientation program for new Board members.

In considering a potential candidate, the CGNC Committee considers both the qualities and skills that the Board, considered in its entirety, currently possesses (see "Election of Directors – Board Skills Matrix" in Section Three of this Circular for additional details regarding the expertise of the Board) and that the Board should possess. Based on the skills and experiences already represented on the Board, the CGNC Committee will consider the experience, personal attributes, and qualities that a candidate should possess in light of the anticipated growth and development of the Corporation. Moreover, the CGNC Committee recognizes the benefits of promoting diversity at the Board level. Diverse perspectives linked in common purpose contribute to innovation and growth for the Corporation. In considering candidates and selecting nominees for the Board, diversity, including gender diversity, is an important factor considered by the CGNC Committee. In assessing a candidate's suitability, the CGNC Committee also takes

into consideration the existing commitments of the individual to ensure that each member has sufficient time to discharge such member's duties.

Notwithstanding that the CGNC Committee is charged with the responsibility of identifying potential new Board members, all members of the Board are eligible to put forth candidates for the CGNC Committee to consider. Additionally, the Board may, and has in the past, engaged recruiting firms to assist with identifying qualified candidates. Once candidates have been approved by the CGNC Committee and their interest level gauged, the entire Board discusses, both formally and informally, the suitability of a particular candidate.

The CGNC Committee maintains an evergreen list of potential candidates for the Board, including a separate evergreen list of potential female candidates for the Board with a view to increasing the Board's gender diversity. For further details about the Board's efforts to consider diverse candidates as part of its candidate searches, see: Section Nine – Diversity Report.

ORIENTATION OF NEW DIRECTORS

The Board is responsible for the orientation and education of new recruits to the Board and all new directors are provided with a directors' orientation manual, which includes the directors' and officers' insurance policies maintained by the Corporation, a copy of key corporate policies, the Corporation's most recent significant public disclosure documents and the current business plan. Prior to or shortly after joining the Board, each new director will meet with the Chairman of the Board, the Lead Director, the Chief Executive Officer, and the Chief Financial Officer of the Corporation. Each individual is responsible for outlining the business and prospects of the Corporation, both positive and negative, with a view to helping ensure that the new director is properly informed to commence his or her duties as a director. In addition, new directors are entitled to hold exclusive meetings with members of senior management of the Corporation in order to familiarize themselves with the various businesses and activities of Aecon. Each new director is also given the opportunity to meet with the Corporation's independent external auditors and legal counsel to the Corporation as well as each Committee Chair.

CONTINUING EDUCATION

Process

The Board ensures, through the CGNC Committee, that ongoing development and education opportunities are made available to existing Board members. The CGNC Committee is responsible for reviewing and approving ongoing development and education initiatives.

In order to determine the needs of directors in terms of ongoing education, each of them is invited to provide the Corporation with his or her interests and views on the matter in an annual Board survey.

Development and Education Opportunities

Current ongoing Board member development and education opportunities include regular presentations and/or updates by management of the Corporation on the Corporation's activities and operations. In addition, Board members meet with management of the Corporation on an ongoing basis to review the business and affairs of the Corporation.

The Chair of the CGNC Committee, together with the Chairman of the Board, also arranges for relevant speakers to present at Board meetings and arranges other periodic education sessions throughout the year. In accordance with the Corporation's Director Education Reimbursement Policy, the Corporation also facilitates the education of Directors through financing annual membership in the Institute of Corporate Directors, which offers a continuing education program for directors. The Corporation believes a director must be well informed and takes a proactive approach in this regard.

In addition to formal meetings, management of the Corporation and the CGNC Committee hold a significant number of informal discussions and director education sessions at Board meetings. Topics for presentation and discussion include, but are not limited to, regulatory matters and legislative and policy developments impacting the Corporation; director duties; specific project updates; the implications of implementing International Financial

Reporting Standards with respect to the Corporation’s accounting procedures; and important developments in the construction industry. Director education in conjunction with Board meetings in 2022 included the following:

In today’s world of digitization, and the COVID-19 pandemic leading to vast amounts of sensitive data being exchanged digitally via personal devices and home networks, cyber attacks across platforms are increasing. The Board believes that being aware of cyber risks is not enough in the current environment; directors need to understand the criticality of each breach and the steps being taken to mitigate it. Consequently, in 2023, the Risk Committee has determined that the semi-annual Cybersecurity Updates the Risk Committee previously received should be delivered quarterly going forward to help ensure that the Risk Committee and the Board is kept updated on the key happenings in the cybersecurity realm, enabling it to make informed decisions for the Corporation.

In 2022, Board members also attended professional development programs and/or presentations outside of Aecon on various topics, including the following:

Site Visits

Site visits to some of the Corporation’s major projects are also viewed as educational opportunities for directors. Site visits provide directors with direct access to office and construction site personnel and assist them in more fully understanding the scope and risks associated with the Corporation’s major projects. Directors are invited to participate in site visits, which are arranged by management of the Corporation. The Board visited the following project site in 2022:

2022	Topic	Attendees
	Site Visit	
October	Tour of the Kicking Horse Canyon Project – Phase 4 Golden, British Columbia	Board

Board Dinner Sessions

The Board may have a dinner session before a regularly scheduled Board meeting with the Chief Executive Officer and other senior executive officers of the Corporation. Usually held the evening prior to a Board meeting, the Board dinner sessions function as an important opportunity for the Board to meet with senior management of the Corporation in a less formal atmosphere, learn more about the Corporation's business and strategic direction, and strengthen the collegial working relationship between management and the Board. The Board held two dinner sessions in 2022.

STRATEGIC PLANNING

On an annual basis, the Board reviews and approves the Corporation's strategic plans. Management of the Corporation also provides regular updates to the Board on the Corporation's strategic plans throughout the year. These plans include key initiatives, details of opportunities, risks, competitive position, financial projections, and other key performance indicators for each of the principal business groups. The annual strategy session allows directors to gain a fuller appreciation of planning priorities and progress being made on strategic plans. Directors also give constructive feedback to management on the Corporation's strategic plans. The feedback from directors and management of the Corporation is a key input in planning for the next year's session. Directors also receive a strategic update on the progress of each of the principal business groups and major projects during the fiscal year.

SUCCESSION PLANNING

The Corporation's philosophy of promoting from within strengthens its values and culture and provides more options for succession. The Corporation complements this with selective external hiring to benefit from diverse experiences and fresh ideas. The Corporation holds senior leaders accountable for talent management and succession planning through a performance assessment process.

The CGNC Committee plays a key role in supporting the Board in its oversight of talent management and succession planning. On an annual basis, the CGNC Committee reviews and discusses with management of the Corporation the composition of Aecon's leadership team.

The Chief Executive Officer routinely discusses with the CGNC Committee the strengths and gaps of key succession candidates, development progress over the prior year and future development plans. There is also a systematic approach for the Board to meet and familiarize itself with potential succession candidates, including more junior executives.

BOARD EXPECTATIONS OF MANAGEMENT

Management of the Corporation is responsible for the day-to-day operations of the Corporation and is expected to implement Board approved strategic business plans and initiatives within the context of authorized forecasts and corporate policies and procedures. The information which management of the Corporation provides to the Board is critical. Management of the Corporation is expected to report regularly to the Board in a comprehensive, accurate and timely fashion in respect of the business and affairs of the Corporation. The Board monitors the nature of the information requested by the Board and otherwise provided to it so that it can effectively identify issues and opportunities for the Corporation. The Chairman of the Board and Lead Director are responsible for the management, development and effective performance of the Board in a manner that ensures the Board is adequately informed and is an effective monitor of management.

At the same time, the Board recognizes that the operations of the Corporation, its strategies and, ultimately, its success, will depend on management of the Corporation being successful. The Board's responsibility is to monitor and supervise, not to manage and operate the business.

SECTION NINE – DIVERSITY REPORT

The Corporation is firmly committed to ensuring a positive and professional working environment in which all people are treated with dignity and respect. Management of the Corporation aims to provide a fair and consistent method for filling job openings in support of equality of opportunity and cultural diversity within Aecon. The Corporation hires, trains, promotes and compensates employees based on their ability to do the job, as well as their dependability and potential for advancement, without regard to: disability, race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, age, record of offences for which a pardon has been granted, marital status, family status, or same-sex partnership status.

Diversity and inclusion are among core Aecon values that guide the Corporation’s thinking and commitment to such values is championed at the highest levels of the Corporation. Management of the Corporation and the Board recognize that diversity – the many different and unique things that the Corporation’s employees individually and collectively bring to work each day – contributes to building a stronger workforce and a better company.

BOARD DIVERSITY

Board of Directors Profile

Women hold 33% of Board seats at Aecon,⁽¹⁾ meeting the Board Diversity Policy target

30%

Target for the proportion of women directors

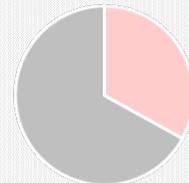

Women accounted for **40%** of new directors since Aecon adopted its first board gender diversity target in 2015⁽²⁾

Aecon’s **self-reported diversity data** of directors is as follows:

	#	%
Visible Minorities	1	11% ⁽³⁾
Persons with Disabilities	0	Nil
Indigenous Peoples	0	Nil

The Board annually reviews the Board Diversity Policy and the measures taken to help ensure that the objectives and targets of the policy are being met and maintained, and to consider the adequacy and appropriateness of the policy in furthering the Corporation's objectives and targets.

Consistent with the Board’s commitment to continuous renewal, **33% of the director nominees joined the Board in the last 5 years⁽⁴⁾**

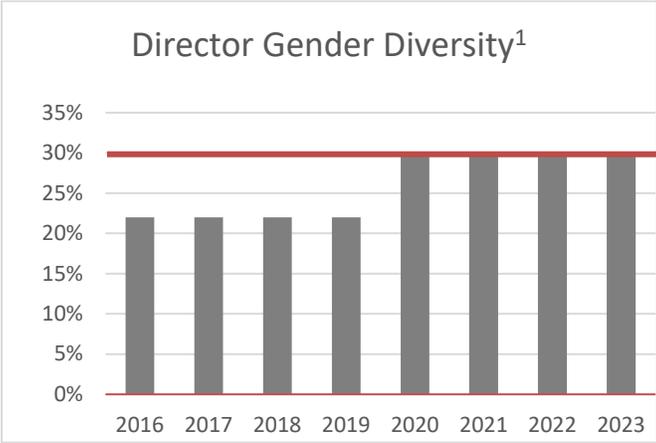

- (1) Where all director nominees identified in this circular are elected in 2023, women will hold 30% of the Board seats at Aecon.
- (2) Where all director nominees identified in this circular are elected in 2023, women will account for 33% of new directors since Aecon adopted its first board gender diversity target in 2015.
- (3) Where all director nominees identified in this circular are elected in 2023, visible minorities will hold 10% of the Board seats at Aecon.
- (4) Where all director nominees identified in this circular are elected in 2023, 40% of the director nominees will have joined the Board in the last 5 years.

The Board strongly supports the principle of boardroom diversity and therefore has acknowledged, with the adoption of a written Board diversity policy in March 2015, as amended in March 2020 and again in February 2021 (the “**Board Diversity Policy**”), the importance of diverse representation among its directors. In addition, the Board strongly supports a diverse workforce as an integral part of the Corporation’s success (see “Corporate Diversity Policy and Initiatives” below).

In accordance with the Board Diversity Policy, the CGNC Committee is committed to recommending director nominees who, in addition to meeting the criteria determined by the Board and set out in this Circular, have a broad range of approaches, backgrounds, skills and experience (see “Corporate Governance Matters – Nomination of Directors” below). The CGNC Committee has specifically considered diverse candidates as part of its candidate searches, and to the extent the CGNC Committee uses a search firm to assist in identifying candidates for appointment, such search firm will be directed to include candidates who meet the skills and experience required and, as a priority, candidates who are women, indigenous peoples, persons with disabilities and members of visible minority groups (collectively, the “Diverse Groups”).

In particular, the Board embraces the proposition that more women on boards would be advantageous to companies as well as to society at large. In 2015, the Board set an objective that by 2017 there would be 25% female representation among the independent directors and met or exceeded that objective starting in 2016. The Board Diversity Policy was further amended in subsequent years, with the most recent update in February 2021 setting a target of at least 30% of all directors being comprised of women.

The graphic below provides a visual outline of the Corporation’s Board diversity in terms of gender based on the individuals nominated for election as directors at the Meeting.

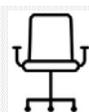

¹From 2016-2019, The Board Diversity Policy set a target of at least 25% female representation among the independent directors. In 2020, the Board Diversity Policy was amended to set a target of at least 25% female representation among all directors, which target was raised to 30% in 2021.

Due to the relatively small size of the Board and the necessity of ensuring that all new directors have the requisite skillset and relevant experience, including within the construction and infrastructure development industry, the Board has not set a target or range of targets in respect of the other Diverse Groups. However, the Board fully recognizes the value of unique perspectives that may be offered by members of each of the Diverse Groups and will continue to consider new director nominees who are members of the Diverse Groups and setting measurable objectives in respect of the same.

CORPORATE DIVERSITY POLICY AND INITIATIVES

Diversity is an integral part of the Corporation’s culture and its operations.

Executive Officer Profile

Women comprise 33% of the three executive officers, as defined in National Instrument 51-102, at Aecon

The Corporation adopted a written **Corporate Diversity Policy** in 2015

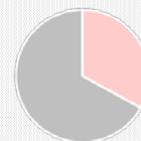

67% of executive officers were **born outside of Canada**, contributing to geographic diversity

Aecon’s **self-reported diversity data** of executive officers is as follows:

	#	%
Visible Minorities	0	Nil
Persons with Disabilities	0	Nil
Indigenous Peoples	0	Nil

The Corporation recognizes that important strides must still be made and is working diligently to put programs in place to improve its representation and retention of women and other underrepresented groups.

33% of Aecon’s executive officers **are under 50 years old**

Corporate Diversity Policy

In 2015, the Corporation adopted a written corporate diversity policy in 2015, as amended in March 2020 (the “**Corporate Diversity Policy**”) which sets out the Corporation’s ambitions and objectives for shaping its workforce and management.

The Corporate Diversity Policy provides a framework for the Corporation to build and help ensure a diverse influx of entry-level to top-tier talent needed to position the Corporation for success, maintain its diverse workforce and promote an inclusive workplace environment that values and utilizes the contributions of employees with diverse backgrounds. This includes a specific focus on attracting, hiring and retaining a growing population of members of the Diverse Groups and the advancement of these employees into leadership positions within the Corporation.

Progress is measured quantitatively by conducting an annual review of the Corporation’s workforce diversity in each job classification and within each operating segment to track key workforce metrics and qualitatively by reviewing feedback from employee surveys, focus groups, town hall meetings and members of the EDI Council (as defined below).

While the Board recognizes the value of the contribution of members of the Diverse Groups in executive officer positions, the Corporate Diversity Policy does not establish specific diversity targets in respect of any of the Diverse Groups at the executive officer level due to the small size of this team and the need to carefully consider a broad range of criteria, most importantly, skills, experience in Aecon’s industry and the appropriate matching of business needs to drive long-term value for the Corporation’s stakeholders. In accordance with the Corporate Diversity Policy, Aecon conducts an annual review of its workforce diversity in each job classification and within each operating segment to track key workforce metrics, including leadership diversity. This review in turn facilitates the consideration of the level of representation of Diverse Groups when appointing members of senior management.

At this time, the Corporate Diversity Policy does not include measurable objectives related to the Diverse Groups because progress against our EDI strategic objectives, in each of our focus areas (Indigenous, People of Colour, Women, LGBTQ2+, and Disabled) is measured by Management regularly and includes a review of talent pipeline makeup i.e., candidate diversity, (as part of our talent acquisition efforts), number of diverse participants in our development programs, and internal mobility of diverse talent. However, the CGNC Committee considers the effectiveness of the Corporate Diversity Policy on an ongoing basis, and more formally on an annual basis as part of its review of Aecon’s corporate governance policies. As described in more detail below, Aecon’s Diversity and Inclusion Strategy is aimed at actively developing a diverse pipeline at Aecon.

Diversity and Inclusion Strategy

Aecon’s ability to remain competitive in its rapidly changing industry rests on its ability to build strong relationships with people and communities. This year, with the continued strong support of Aecon’s executive team, equity, diversity, and inclusion efforts continued to be a business imperative.

To accelerate the development of diverse leaders and strengthen Aecon’s succession bench, the Corporation adopted a diversity and inclusion strategic plan. As part of the diversity and inclusion strategic plan, the Equity, Diversity and Inclusion Council (“**EDI Council**”) was launched in 2015 and five key Employee Resource Groups (“**ERGs**”) were introduced in 2020. The focus areas of the ERGs include Women, Indigenous People, LGBTQ2+, People of Colour and People with Disabilities.

The EDI Council is part of Aecon’s key business strategy to build an organization that attracts top talent and optimizes employees’ engagement and performance.

The EDI Council’s objectives are to promote: (i) workforce diversity by recruiting from a diverse, qualified group of potential applicants to secure a high performing workforce drawn from all segments of the Canadian landscape; (ii) workplace inclusion by cultivating a culture that encourages collaboration, flexibility, understanding and fairness to enable individuals to contribute to their full potential engagement and retention; and (iii) sustainability & accountability by developing structures and strategies to equip leaders with the ability to manage and develop Aecon’s talent through a diverse lens with an aim at institutionalizing a culture of inclusion.

The ERGs are designed to provide a safe space where underrepresented groups can connect to build a sense of community and feel validated. They provide Aecon with insights into experiences of underrepresented groups in the workplace and communities in which we build.

Aecon conducts an annual review of its diversity and inclusion strategic plan and workforce diversity to ensure that the diversity and inclusion objectives are met.

Women of Aecon

 <p>2022 HIGHLIGHTS</p>	<p>Aecon’s efforts to train new workers from two historically underrepresented groups in construction – women and Indigenous people – were advanced through the Ministry of Labour, Training and Skills Development Fund.</p> <p>Ontario’s LiUNA Local 183 recognized the Aecon Women in Trades (AWIT) program with the Vic Soncin Employer Recognition Award, which celebrates organizations or programs committed to advancing the trades. Since 2019, AWIT has prepared dozens of women for careers in the skilled trades.</p>
---	---

The presence of women within the Corporation’s senior leadership and enterprise-wide is an important business goal and an aspiration of the Board. One of the goals of the Corporate Diversity Policy is to ensure that there will be highly qualified women within the Corporation available to fill vacancies in executive officer and other leadership positions. In appointing individuals to executive officer positions, the Corporation considers a number of factors, including the skills and experience required for the position and the personal attributes of the candidates. The level of representation of women in senior leadership roles is also considered as one such factor.

The Corporation has been pursuing initiatives aimed at promoting the hiring and retention of women. For example, the Aecon Women Inclusion Network (“**AWIN**”) was formed in June 2014 under the original name, Women of Aecon Group, to inspire the Corporation’s women to reach their full career potential through transfer of knowledge, mentorship, networking, and shared experiences. AWIN is sponsored by the Senior Vice President, Utilities Operations and led by two employee co-chairs and Council Members. Since its inception, AWIN has held regular networking and mentoring sessions featuring internal and external speakers and currently offers a structured professional development curriculum.

Indigenous Engagement

The Corporation is dedicated to a comprehensive, collaborative, Canada-wide approach to Indigenous engagement. Aecon’s Indigenous strategy supports the inclusion, engagement and participation of Indigenous communities by acting as a responsible and respectful business partner, working side by side with community leaders and members and creating and nurturing mutually beneficial relationships.

In 2022, Aecon took an important next step in a journey of reconciliation with Indigenous peoples through the development and publication of our first Reconciliation Action Plan. This plan outlines Aecon’s commitment to advancing reconciliation across our operations by ensuring our employees, projects and initiatives are aligned with the priorities of Indigenous communities.

More information on Aecon’s Indigenous Affairs and projects is available in the investor briefcase section of Aecon’s website at: <https://www.aecon.com/investing/indigenous-affairs>.

Inclusion Initiatives

Building a diverse and inclusive organization is one of Aecon’s top priorities. Excellence in this area is an essential expression of the Corporation’s values and an important driver of its business success. In 2022, Aecon made further inroads to address systemic and institutional racism and gender-based and other forms of discrimination, as summarized in the table below.

 <p>2022 HIGHLIGHTS</p>	<p>Added, through the Aecon University learning platform, four new learning modules: <i>Anti-Black Racism in Construction</i>, <i>Introduction to Gender</i>, <i>Accessibility for Canadians</i> and <i>Gender in the Workplace</i>.</p> <p>Created a new Workplace Accommodation Policy guided by a specific recommendation of the People with Disabilities Employee Resource Group.</p> <p>Launched the Champions for Diversity in Leadership program to support the career development and, ultimately, the promotion of diverse talent into leadership roles at Aecon. The first cohort comprises 12 diverse, high-potential, mid-career employees; participants are sponsored by some of Aecon’s most senior executives and receive tailored career development support to prepare them to assume positions of increasing responsibility.</p> <p>Clarified and formalized the availability of parental leave to all Aecon employees who become parents, regardless of gender, including adoptive parents and same-sex partners.</p>
