

INTERNATIONAL

We're bringing our experience and knowledge to the world. Aecon has entered the international market steadily and profitably by leveraging our iconic Canadian reputation, diverse capabilities, and proven track record in both the Construction and Concessions segments.

Working closely within Aecon's core segments, Aecon's international initiatives focus on Public-Private Partnerships and infrastructure concessions; from development through project realization phases to delivered assets and operations. Over the years, Aecon's activity internationally has spanned continents.

Notable international projects that Aecon has worked on include:

- // Cross Israel Highway (Israel)
- // Ferihegy Airport Expansion (Hungary)
- // L.F. Wade International Airport (Bermuda)
- // Nathpa Jhakri Hydroelectric (India)
- // Quito International Airport (Ecuador)
- // Wolsong Tritium Removal Facility (Korea)
