ABOUT ENOCH AECON JOINT VENTURE

The Enoch Aecon Joint Venture has the unique capability to provide an Indigenous-led solution for industrial construction and is actively pursuing industrial construction projects for mutual benefit in Alberta's Industrial Heartland.

Enoch Aecon Joint Venture brings a broad range of services and solutions supporting infrastructure development in the Treaty 6 territory of Central Alberta. We are committed to helping our clients achieve their objectives in all aspects of industrial construction, turnarounds and maintenance. The Enoch Aecon Joint Venture is 51% owned Enoch Cree First Nation and 49% Aecon.

ABOUT ENOCH CREE FIRST NATION

Enoch Construction LP is Enoch Cree First Nation's designated corporate entity implementing commitments outlined in various business relationships. Enoch Cree First Nation is a progressive and proud First Nation

community in of Central Alberta, actively seeking to preserve and promote their culture, language, history, and spirituality while advancing the economical, educational, health and social well-being of their people. Mutual prosperity is a fundamental tenet of Treaty 6 and is an essential principle of Enoch Cree First Nation's economic endeavors. Partnerships are rooted in Cree culture and built upon a mutual respect. The Cree name for Enoch is Maskêkosihk (pronounced Muss-Kay-Go-Sik) and translates as 'people of the land of medicine.'

ABOUT AECON

As a Canadian leader in construction and infrastructure development, Aecon strives to be the number one Canadian infrastructure company. Aecon safely, profitably and sustainably delivers integrated solutions to private and public-sector clients through its Construction segments in the Civil, Urban Transportation, Nuclear, Utility and Conventional Industrial sectors, and provides project development, financing, investment and management services through its Concessions segment.

"Aecon is proud to establish this meaningful partnership with Enoch Cree First Nation," said Jean-Louis Servranckx, President and Chief Executive Officer, Aecon Group Inc. "Building on the success of Aecon's Indigenous partnerships nation-wide, our industrial teams in Western Canada will leverage this joint venture with key clients."

"Mamawihkamatowin (working together) is one of Enoch Cree Nation's core values," said Michelle Wilsdon, Councillor and lead for Enoch's business development strategy. "We are pleased to deepen our relationship with Aecon, work together for mutual prosperity, and advance Enoch's position as an active participant in Alberta's energy sector."

MASKEKOSAK

SAFETY

Safety First is our number one core value and it is deeply ingrained at all levels of our organization, from leadership through our frontline workers. We firmly believe that positive results can only be achieved by providing safe, healthy, working conditions and impeccably maintained equipment. Our employees, suppliers, and subcontractors embrace the accountability inherent in protecting their own health and safety, as well as that of their co-workers and environment.
