

THIRD QUARTER 2024 AECON GROUP INC. (TSX: ARE)

Ē

Forward-Looking Information

The information in this presentation includes certain forward-looking statements which may constitute forward-looking information under applicable securities laws. These forward-looking statements are based on currently available competitive, financial, and economic data and operating plans but are subject to known and unknown risks, assumptions and uncertainties. Forward-looking statements may include, without limitation, statements regarding the operations, business, financial condition, expected financial results, performance, prospects, ongoing objectives, strategies and outlook for Aecon, including statements regarding: expectations regarding the financial risks and impact of the fixed price legacy projects, the expected timelines of such projects and the application of critical accounting estimates in respect of the fixed price legacy projects, and the information in respect of such joint ventures under review and assessment in respect of the application of such critical accounting estimates; backlog and estimated duration; the impact of certain contingencies on Aecon (see: Section 10.2 "Contingencies" in Aecon's September 30, 2024 MD&A); the uncertainties related to the unpredictability of global economic conditions; its belief regarding the sufficiency of its current liquidity position including sufficiency of its cash position, unused credit capacity, and cash generated from its operations; its strategy of seeking to differentiate its service offering and execution capability and the expected results therefrom; its efforts to maintain a conservative capital position; expectations regarding future revenue growth and the impact therefrom; expectations regarding profitability and margin predictability; expectations regarding the pipeline of opportunities available to Aecon; statements regarding the various phases of projects for Aecon; its strategic focus on projects linked to decarbonization, energy transition and sustainability, and the opportunities arising therefrom; communities sharing in the benefits and opportunities associated with Aecon's work, including commitments to publish information with respect to reconciliation and targets including Indigenous suppliers; expectations regarding the impacts of the Xtreme and United acquisitions on the core offerings in the utilities, nuclear, power and industrial sectors, as well as on U.S. growth; expectations regarding opportunities to add to the existing portfolio of Canadian and international concessions in the next 12 to 24 months; Oaktree Capital Management, L.P.'s ("Oaktree") investment in Aecon Utilities Group Inc. ("Aecon Utilities"), the expected benefits thereof and results therefrom; expectations regarding the acceleration of growth of Aecon in Canada and the U.S.; expectations regarding the benefits and strategic rationale for the Xtreme and United acquisitions; the ability of Aecon to integrate successfully with both Xtreme and United following the acquisitions; and the effective transition and collaboration with Xtreme and United management. Forward-looking statements may in some cases be identified by words such as "will," "plans," "schedule," "forecast," "outlook," "completing," "mitigating," "potential," "possible," "maintain", "seek," "cost savings," "synergies," "strategy," "goal," "indicative," "may," "could," "might," "can," "believes," "expects," "anticipates," "aims," "assumes," "upon," "commences," "estimates," "projects," "intends," "prospects," "targets," "occur," "continue," "should" or the negative of these terms, or similar expressions. In addition to events beyond Aecon's control, there are factors which could cause actual or future results, performance, or achievements to differ materially from those expressed or inferred herein including, but not limited to: the risk of not being able to drive a higher margin mix of business by participating in more complex projects, achieving operational efficiencies and synergies, and improving margins; the risk of not being able to meet contractual schedules and other performance requirements on large, fixed priced contracts; the risks associated with a third party's failure to perform; the risk of not being able to meet its labour needs at reasonable costs; possibility of gaps in insurance coverage; the risk of not being able to address any supply chain issues which may arise and pass on costs of supply increases to customers; the risks associated with international operations and foreign jurisdiction factors; the risk of not being able, through its joint ventures, to enter into implementation phases of certain projects following the successful completion of the relevant development phase; the risk of not being able to execute its strategy of building strong partnerships and alliances; the risk of not being able to execute its risk management strategy; the risk of not being able to grow backlog across the organization by winning major projects; the risk of not being able to maintain a number of open, recurring, and repeat contracts; the risk of not being able to identify and capitalize on strategic operational investments; the risk of not being able to accurately assess the risks and opportunities related to its industry's transition to a lower-carbon economy; the risk of not being able to oversee, and where appropriate, respond to known and unknown environmental and climate change-related risks, including the ability to recognize and adequately respond to climate change concerns or public, governmental, and other stakeholders' expectations on climate matters; the risk of not being able to meet its commitment to meeting its greenhouse gas emissions reduction. Board diversity or Indigenous supplier targets; the risks of nuclear liability; the risks of cyber interruption or failure of information systems; the risks associated with the strategy of differentiating its service offerings in key end markets; the risks associated with undertaking initiatives to train employees; the risks associated with the seasonal nature of its business; the risks associated with being able to participate in large projects; the risks associated with legal proceedings to which it is a party; the ability to successfully respond to shareholder activism; the risk that Aecon will not realize the opportunities presented by a transition to a net-zero economy; the risk of a delay in, or failure to close, the United Transaction; risks associated with future pandemics, epidemics and other health crises and Aecon's ability to respond to and implement measures to mitigate the impact of such pandemics or epidemics; the risk that the strategic partnership with Oaktree will not realize the expected results and may negatively impact the existing business of Aecon Utilities; the risk that Aecon Utilities will not realize the anticipated balance sheet flexibility with the completion of the investment; the risk that Aecon Utilities will not realize opportunities to expand its geographic reach and range of services in the U.S: the risk of costs or difficulties related to the integration of Aecon and United, and of Aecon Utilities and Xtreme, being greater than expected; the risk of the anticipated benefits and synergies from the proposed United Transaction, and of the previous acquisition of Xtreme, not being fully realized or taking longer than expected to realize; the risk of being unable to retain key personnel, including management of United and Xtreme; the risk of being unable to maintain relationships with customers, suppliers or other business partners of United and Xtreme; the risk that travel through Bermuda International Airport does not recover to pre-Covid-19 levels, and various other risk factors described in Aecon's filings with the securities regulatory authorities, which are available under Aecon's profile on SEDAR+ (www.sedarplus.ca), including the risk factors described in Section 13 - "Risk Factors" in Aecon's 2023 Management's Discussion and Analysis for the fiscal year ended December 31, 2023 and our Management's Discussion and Analysis for the fiscal guarter ended September 30, 2024 and in other filings made by Aecon with the securities regulatory authorities in Canada.

These forward-looking statements are based on a variety of factors and assumptions including, but not limited to that: none of the risks identified above materialize, there are no unforeseen changes to economic and market conditions and no significant events occur outside the ordinary course of business and assumptions regarding the outcome of the outstanding claims in respect of the remaining three fixed price legacy projects being performed by joint ventures in which Aecon is a participant. These assumptions are based on information currently available to Aecon, including information obtained from third-party sources. While Aecon believes that such third-party sources are reliable sources of information, Aecon has not independently verified the information. Aecon has not ascertained the validity or accuracy of the underlying economic assumptions contained in such information from third-party sources and hereby disclaims any responsibility or liability whatsoever in respect of any information obtained from third-party sources.

Except as required by applicable securities laws, forward-looking statements speak only as of the date on which they are made and Aecon undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Non-GAAP & Supplementary Financial Measures

The presentation presents certain non-GAAP and supplementary financial measures, as well as non-GAAP ratios and capital management measures disclosed to assist readers in understanding the Company's performance ("GAAP" refers to Canadian Generally Accepted Accounting Principles under IFRS). These measures do not have any standardized meaning and therefore are unlikely to be comparable to similar measures presented by other issuers and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Management uses these non-GAAP and supplementary financial measures, as well as certain non-GAAP ratios and capital management measures to analyze and evaluate operating performance. Aecon also believes the financial measures defined below are commonly used by the investment community for valuation purposes, and are useful complementary measures of profitability, and provide metrics useful in the construction industry. The most directly comparable measures calculated in accordance with GAAP are profit (loss) attributable to shareholders or earnings (loss) per share.

Throughout this presentation, the following terms are used, which do not have a standardized meaning under GAAP: "Adjusted EBITDA", "Equity Project EBITDA", "Backlog" and "Adjusted EBITDA margin". "Adjusted Profit (Loss) Attributable to Shareholders", "Adjusted Earnings Per Share – Basic", and "Adjusted Earnings per Share – Diluted". "Operating margin" and "Gross profit margin" are a supplementary financial measures.

Refer to Section 4 "Non-GAAP and Supplementary Financial Measures" and Section 9 "Quarterly Financial Data" in the Company's Management's Discussion and Analysis for the fiscal quarter ended September 30, 2024 (the "Q3 2024 MD&A"), available under Aecon's profile on SEDAR+ (www.sedarplus.ca), for additional information regarding the non-GAAP and supplementary financial measures and non-GAAP ratios used in this presentation. Also refer to pages 7, 8, 23, 24, and 25 in this presentation for additional information regarding non-GAAP ratios and capital management measures. The additional information regarding the non-GAAP and supplementary financial measures and non-GAAP ratios used in this presentation information in the above noted sections is incorporated by reference into this presentation.

Why Invest in Aecon?

POSITIONED TO HARNESS OPPORTUNITIES THAT ARE EXPECTED TO COME WITH THE TRANSITION TO A NET ZERO ECONOMY

- Growing number of projects in Concessions portfolio
- Transition to net zero economy creating opportunities in both Recurring revenue base adds further stability and growth opportunity to business mix
 - 59% of 03 2024 TTM revenue from non-fixed price contracts versus 54% of Q3 2023 TTM revenue
 - Focused on sustainability, including 30% GHG reduction target on an intensity basis⁹ by 2030 as compared to 2020 and net zero target by 2050
- Strategic disposition of Aecon's Transportation East ("ATE") business in 02 2023
- Growth in Concessions and O&M portfolio provides future revenue generating opportunities
- Recent accretive acquisitions of Xtreme Powerline and United Engineers & Constructors strengthen core offerings in key Utilities, Nuclear, Power and Industrial sectors while driving U.S. growth

- 1 Q3 2024 Trailing Twelve Months.
- 2 After corporate costs and eliminations.
- 3 Compound Annual Growth Rate ("CAGR") of annual dividend from 2014 to 2024.
- 4 September 30, 2024.

Canada's exposure to resources sector driving additional

Significant opportunities through Inflation Reduction Act (IRA),

Bipartisan Infrastructure Law (BIL), and Advance Act in the U.S.

- 5 This is a non-GAAP financial measure. Refer to page 2 in this presentation.
- APCON

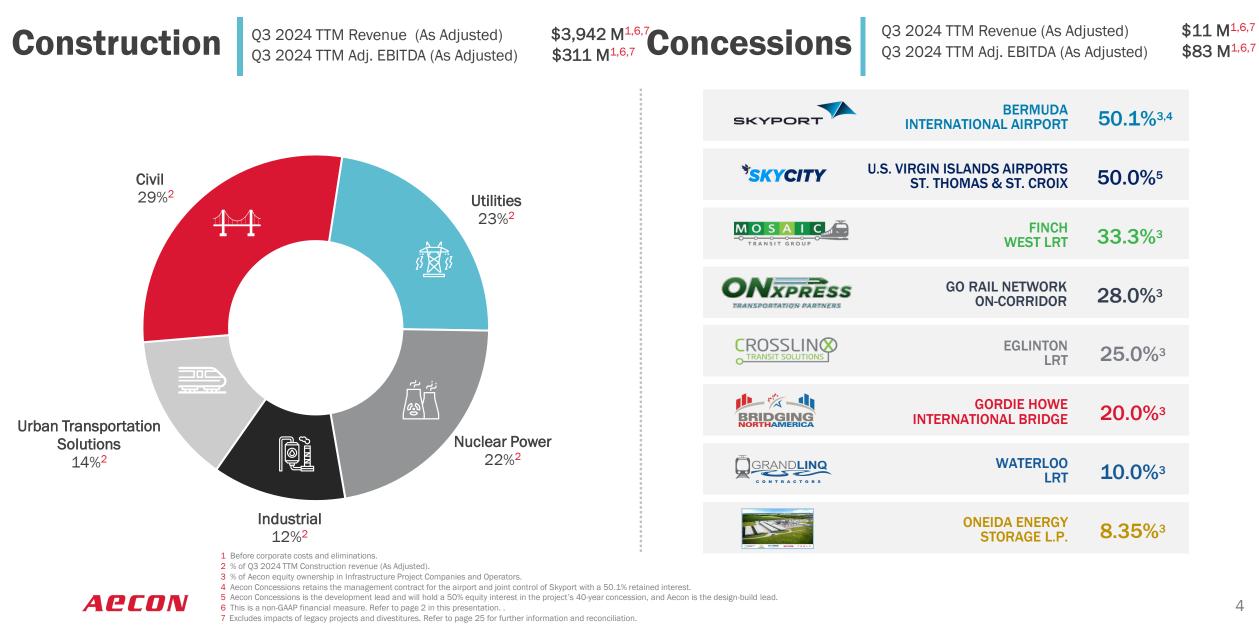

public and private sectors

demand in private sector

demand

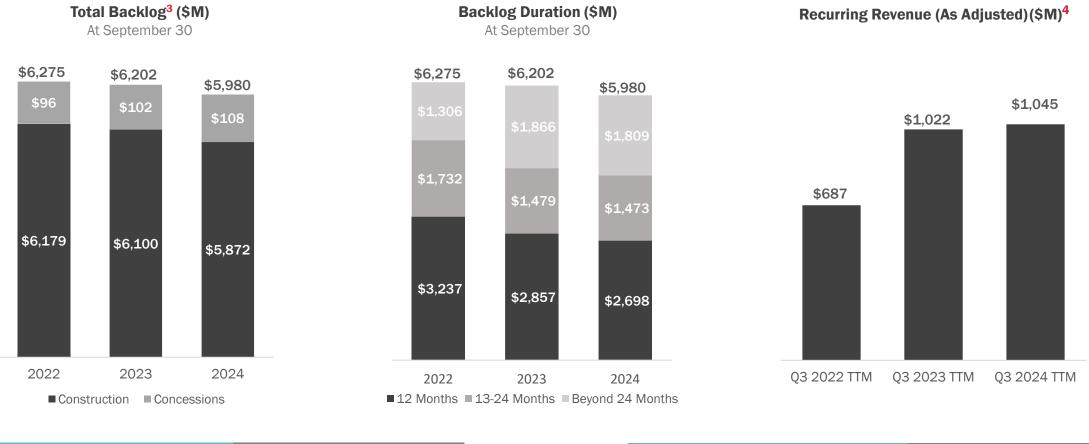

- 6 Represents the implied \$750 million enterprise value for Aecon Utilities divided by 02 2023 TTM Adi, EBITDA of \$80.4M.
- 7 Sustainability projects help to preserve and protect the environment, but also help to preserve the ability of society to sustain itself. Including but not limited to projects that: reduce emissions, support the transition to a net-zero economy, support clean water use and conservation, and reduce/recycle waste.
- 8 Strategic, acquisitions made over the past five years related to clean energy and transition to a net zero economy through decarbonization.
- 9 Intensity based targets are based on economic output and represent tonnes of CO₂ per million dollars of revenue.
- 10 Excludes impacts of legacy projects, and divestitures. Refer to page 25 for further information and reconciliation.

Diverse Business Model

Solid Backlog & Strong Recurring Revenue Profile

Current backlog excludes collaborative and progressive design projects currently under development 1

53% Cost Plus/ Unit Price	47% Fixed Price	59% Cost Plus/Unit Price	41% Fixed Price
(53% at September 30, 2023)	(47% at September 30, 2023)	(54% same period last year)	(46% same period last year)
Backlog Contract Type At September 30,	2024	Q3 2024 TTM Revenue ²	

1 These projects were awarded in a collaborative model and are currently in the development and alliance phases. Further detail on these projects is provided on page 6.

2 Q3 2024 TTM Revenue contract mix reflects inclusion of recurring revenue (Cost Plus/Unit Price) and timing of backlog work off.

3 This is a non-GAAP financial measure. Refer to page 2 in this presentation.

ACCON

4 TTM recurring revenue (as adjusted for the impacts from the sale of ATE and 49.9% stake in Skyport). Adjustment to Q3 2022 TTM of -\$116M, to Q3 2023 TTM of -\$102M and to Q3 2024 TTM of \$nil.

De-Risking Business Through Collaborative Models

Collaborative projects currently in development phases present significant opportunities for long term growth¹

GO Rail Expansion On-Corridor (OnCorr) Works Project

Est. Total Capital Cost: >\$10B^{2,4}

Progressive Design, Build, Operate & Maintain

ONxpress Transportation Partners (ONxpress) selected to design, build, operate and maintain the GO Expansion OnCorr Works project in Ontario, ONxpress consortium comprised of Aecon, FCC, Deutsche Bahn and Alstom.

0&M partnership anticipated to commence Jan. 1, 2025

Cyril E. King and Henry E. Rohlsen Airports in U.S. Virgin Islands

Total Capital Cost Under Development

Collaborative Design, Build, Finance, Operate & Maintain

SkyCity, an Aecon-led consortium, was selected to redevelop the Cyril E. King Airport in St. Thomas and the Henry E. Rohlsen Airport in St. Croix.

Aecon will have 50% share in the design-build JV with J. Benton and 50% equity interest in the 40-year concession with Tikehau Star Infra.

APCON

Scarborough Subway Extension Stations, Rail and System (SRS)

Est. Design & Construction Cost: \$2B - \$4B^{3,4}

Progressive Design-Build

Scarborough Transit Connect (STC), a 50/50 consortium

between Aecon (lead partner) and FCC, selected as the

development partner for the Scarborough Subway

Extension SRS project in Ontario.

Darlington New Nuclear Project (DNNP) Small Modular Reactor

Total Capital Cost Under Development

Integrated Project Delivery (IPD)

Total Capital Cost Under Development Progressive Design-Build

Contrecoeur Terminal

Expansion Project

Contrecoeur Terminal Constructors General Partnership, Aecon, GE Hitachi and AtkinsRéalis executed a six-year alliance agreement with Ontario Power Generation (OPG) comprised of Aecon (40%) and Pomerleau (60%), executed to deliver North America's first grid-scale SMR through the a contract for the design of the in-water works for the Contrecoeur Terminal Expansion project in Quebec.

Winnipeg North End Sewage **Treatment Plant Biosolids Facilities** Upgrade project

Total Capital Cost Under Development

Progressive Design-Build

Red River Biosolids Partners GP, a consortium comprised of Aecon, Oscar Renda and MWH Constructors, in which Aecon is the lead partner and holds a 33.3% interest, has executed a contract to deliver the Winnipeg North End Sewage Treatment Plant Biosolids Facilities Upgrade project.

Howard A. Hanson Dam Additional Water Storage Fish Passage Facility

Est. Design & Construction Cost: US\$657M

Integrated Design and Construction

Flatiron-Aecon Joint Venture, a consortium between Aecon and Flatiron Construction in which Aecon holds a 40% interest, executed a contract with U.S. Army Corps of Engineers to deliver the Howard A. Hanson Dam Additional Water Storage Fish Passage Facility in Ravensdale, Washington Statement.

Highway 8 - Category B Project

Total Capital Cost Under Development

Progressive Alliance Contract

Aecon-Emil Anderson Construction General Partnership (AEGP), a 50/50 consortium between Aecon And Emil Anderson Construction, was selected by the Province of British Columbia to deliver the Highway 8 - Category B Project under a progressive alliance contract model.

1 Projects would be added to backlog following completion of successful development phases over one to two years.

2 Based on Infrastructure Ontario Market Update Report (January 2022); represents "Estimated Total Capital Costs" for the project, not Aecon's share in the project.

3 Based on Infrastructure Ontario Market Update Report (November 2022); represents "Estimated Design & Construction Cost" for the project, not Aecon's share in the project.

4 Estimated figures are not Aecon's shares in the projects as the work is performed in partnerships or joint ventures with other companies; Aecon's scope of work and relative value subject to change during the development phases.

DNNP in Ontario.

Storage Project

and Feeder Replacement

Overview of Aecon Utilities

Large and diverse utility infrastructure provider in Canada with a growing U.S. presence

Aecon Utilities Xtreme Powerline Acquisition

Full-service powerline constructor with approximately 300 employees

PRICE & OVERVIEW	 Aecon Utilities acquired a majority interest in Xtreme Powerline Construction ("Xtreme"), an electrical distribution utility contractor headquartered in Michigan Base purchase price of ~US\$73M, with the potential for additional contingent proceeds 	
COMPANY DETAIL	 Xtreme specializes in overhead distribution line repair, maintenance and expansion services throughout the Eastern United States, and provides emergency restoration services for over 20 utility clients across the U.S. Xtreme has held a long-time overhead distribution Master Service Agreement ("MSA") with DTE Energy ("DTE") 	
FINANCING	 Financed through Aecon Utilities' standalone committed revolving credit facility Xtreme management retained a minority ownership in Xtreme as well as leadership responsibilities in the Xtreme business 	

STRATEGIC RATIONALE

Significant T&D Opportunity in the U.S.

j)

 $\overline{\langle}$

j.

- The Bipartisan Infrastructure Bill and Inflation Reduction Act include ~US\$65 billion for modernizing the nation's electricity grid and power infrastructure
- Many electric transmission towers in North America require significant maintenance to remain operational, as about 70% of the grid's transmission lines and power transformers are over 75 years old

Regional Electrical Contractor With Strong Relationships

- Xtreme has cultivated robust partnerships with several prominent energy companies in the U.S., such as DTE, and has secured contracts with over 20 other utilities for emergency restoration work
- Aecon Utilities can leverage Xtreme's pre-qualification with utility companies and contractors to pursue more opportunities in the U.S.

Cross-Selling Opportunities With Key Clients

 The relationship with Xtreme's key clients offer significant avenues for cross-selling and revenue synergy opportunities for Aecon, especially in segments such as renewables, gas, nuclear, and underground electrical distribution

ACCON

United Engineers & Constructors Acquisition

Nuclear and conventional power constructor with over 200 employees

PRICE & OVERVIEW	 Aecon entered into a definitive purchase agreement to acquire United Engineers & Constructors Inc. ("United"), a nuclear and conventional power contractor headquartered in New Jersey Purchase price of US\$33M, payable in cash at closing Closing will be subject to customary adjustments and closing conditions, including obtaining all necessary regulatory approvals
COMPANY DETAIL	 United has over 200 employees and provides end-to-end engineering, planning, and program and construction management services to nuclear and conventional power clients in the United States and Canada Aecon and United have a proven relationship and are collaboratively engaged as joint venture partners in executing steam generator replacement work and fuel channel and feeder replacements on all six units at the Bruce Nuclear Generating Station in Ontario Majority of United's revenues are conducted under Master Service Agreements and are recurring in nature

STRATEGIC RATIONALE

Increased U.S. Presence

 $\overline{\bigcirc}$

 $\langle \cdot \rangle$

 $\langle \cdot \rangle$

- Opportunity to accelerate Aecon Nuclear's ability to harness the robust nuclear opportunities across North America while driving continued growth in the U.S. and priority markets
- Positions Aecon Nuclear for further steam generating replacement work in the U.S. under a well-established brand

Strengthening Client Relationships

- Aecon will expand its stake in Canadian Joint-Venture projects (SGRT and FCFR)
- Opportunity to strengthen client base and relationships with existing and new U.S. clients

Additional Technical Capabilities

 United's strong technical expertise in digital instrumentation, control engineering and specialized construction will advance Aecon's continued diversification and growth with a strategic focus on the energy transition

ACCON

Valuable Concessions and O&M Portfolio

International Airport Portfolio

Bermuda LF. Wade International Airport

• 50.1% equity ownership and concession

- New terminal opened in December 2020
- 30-year operations and maintenance concession to 2047
- International Airport with exclusive rights to serve all commercial, private and cargo air traffic in Bermuda

Cyril E. King Airport and Henry E. Rohlsen Airports (Currently in Development)

• 50% equity interest

*SKYCITY

- Announced in March 2024
- 40-year concession following close
- Comprehensive airport redevelopment initiative for two US Virgin Islands airports

Canadian LRTs

- 30-year maintenance concessions on Eglinton, Finch and Waterloo LRTs
- Availability-based payments with revenue risk mitigated by provincial transit counterparties
- Experienced team currently bidding on other Canadian transit projects

GO On-Corridor Works

- 25-year operations & maintenance agreement (including development phase) for the GO Rail Expansion project
- Decarbonization project involving electrification of system, new vehicle fleet and enhanced service

Gordie Howe International Bridge

- 30-year operations and maintenance concession
- Availability-based payments with revenue risk mitigated by Canadian Federal Government

Oneida Energy Storage Facility

- 20-year agreement with IESO (with additional 5 years of uncontracted revenue) for electricity storage services
- Availability-based payments for capacity services, as well as revenue from energy sold into Ontario electricity grid and operating reserve

Net Debt to Q3 2024 TTM Adjusted EBITDA ^{1,2,8}	1.5x			
Debt (excluding Preferred Shares of Aecon Utilities) to capitalization percentage ⁴	12%	Cash Flow From Operations	147.1	(87.6)
		Cash Flow From Investing Activities	(101.1)	334.0

• No debt or working capital credit facility maturities until 2027, except equipment and property loans and leases in the normal course

• Cash balances at September 30, 2024 were atypically strong due to timing related project payments and receipts as well as the continuation of strong cash balances from the start of the year

Cash Flow From Operations & Investing Activities

1 Excludes Preferred Shares of Aecon Utilities.

2 Net debt calculated as long-term debt plus bank indebtedness less core cash. Net debt-to-Adjusted EBITDA ratio is measurement that Management believes is commonly used by the investment community to assess the Company's debt leverage and liquidity.
 6 Excludes \$11.5 million incremental proceeds on minority sale of Bermuda Airport and sale of ATE in Q3

3 Net Working Capital is a capital management measure that management uses to analyze and evaluate Aecon's liquidity and its ability to generate cash to meet its short-term financial obligations. Management also believes this measure is commonly used by the investment community for valuation purposes. Refer to page 23 in this presentation for the composition of Net Working Capital and a quantitative reconciliation to the most comparable financial measure.

4 Debt to capitalization percentage is considered by the Company to be the most important metric in measuring the strength and flexibility of its consolidated balance sheets. Calculated as debt of \$148.2 million divided by capitalization of \$1,259.1 million, which is comprised of shareholders' equity of \$1,110.8 million (including \$154.9 million for Preferred Shares of Aecon Utilities) plus debt of \$148.2 million, to equal 12%.

5 Net JV Impact represents the difference between Equity Project EBITDA included in Adjusted EBITDA (Equity Project EBITDA as defined in Aecon's Q3 2024 MD&A) and distributions from projects accounted for using the equity method.

46.0

246.4

6 Excludes \$11.5 million incremental proceeds on minority sale of Bermuda Airport and sale of ATE in Q3 2024 TTM and \$317.6 million net proceeds on minority sale of Bermuda Airport and sale of ATE in Q3 2023 TTM. Excludes \$114.2 million (net of cash acquired) in Q3 2024 TTM related to strategic business acquisitions.

7 Free Cash Flow is a capital management measure that management uses to analyze and evaluate the cash generated after taking into consideration cash outflows that support its operations and maintain its capital assets. Management also believes this measure is commonly used by the investment community for valuation purposes. Refer to page 23 in this presentation for a quantitative reconciliation to the most comparable financial measure, being Cash Flow From Operations & Investing Activities.
 8 This is a non-GAAP financial measure or non-GAAP ratio. Refer to page 2 in this presentation.

Outlook

- Aecon's goal is to build a resilient company through a balanced and diversified work portfolio across sectors, markets, geographies, project types, sizes, and delivery models while enhancing critical execution capabilities and project selection to play to its strengths.
- With backlog of \$6.0 billion at the end of the third quarter of 2024, recurring revenue programs continuing to see solid demand, and a strong bid pipeline, Aecon believes it is positioned to achieve further revenue growth commencing in 2025 and over the next few years and is focused on achieving improved profitability and margin predictability.
- In the Construction segment, demand for Aecon's services across Canada, as well as increasingly in select U.S. and international markets, continues to be strong. Development phase work is ongoing in consortiums in which Aecon is a participant to deliver several significant long-term progressive design-build projects of various sizes. These projects are being delivered using progressive design-build or alliance models and are expected to move into the construction phase in 2025 and 2026. None of the anticipated work from these projects is yet reflected in backlog.
- In the Concessions segment, there are a number of opportunities to add to the existing portfolio of Canadian and international concessions in the next 12 to 24 months. These include projects that support a collective focus on sustainability and the transition to a net-zero economy, underpinned by trends associated with aging infrastructure, mobility, connectivity, and population growth. In the first quarter of 2024, an Aecon-led consortium was selected by the U.S. Virgin Islands Port Authority to redevelop the Cyril E. King Airport in St. Thomas and the Henry E. Rohlsen Airport in St. Croix under a collaborative Design, Build, Finance, Operate and Maintain Public-Private Partnership model. The GO Expansion On-Corridor Works project includes an operations and maintenance component over a 23-year term commencing January 1, 2025.
- Global and Canadian economic conditions impacting inflation, interest rates, and overall supply chain efficiency have stabilized, and these factors have largely been and will continue to be reflected in the pricing and commercial terms of the Company's recent and prospective project awards and bids. Results have been negatively impacted by four legacy projects in recent periods, undermining positive profitability trends in the balance of Aecon's business. Until the balance of these projects is complete and related claims have been resolved, there is a risk that this could also occur in future periods see Section 5 "Recent Developments" and Section 10.2 "Contingencies" in the Q3 2024 MD&A, and Section 13 "Risk Factors" in the 2023 Annual MD&A regarding the risk on certain large fixed price legacy projects entered into in 2018 or earlier by joint ventures in which Aecon is a participant.
- Revenue in 2024 will be impacted by the sales of ATE and a 49.9% interest in Skyport completed in 2023, the substantial completion of several large projects in 2023, the four legacy projects, and major projects currently in the development phase by consortiums in which Aecon is a participant being delivered using the progressive design-build or alliance models which are expected to move into the construction phase in 2025 and 2026.
- The completion and satisfactory resolution of claims on the remaining three legacy projects with the respective clients remains a critical focus for the Company and its partners. Aecon is also focused on making strategic investments in its operations to support access to new markets and increase operational effectiveness.

Aecon's sustainability strategy focuses on what we build and how we build it - we are building infrastructure projects that are helping drive the transition to a net zero future, while also expanding our expertise in sustainable construction practices

Construction Q3 2024 Results

Revenue up by \$57M, or 5%, period-over-period

- ▲ \$99M in nuclear operations from an increased volume of refurbishment work at nuclear generating stations located in Ontario and the U.S.
- ▲ \$51M in civil operations from a higher volume of major projects and roadbuilding construction work in western Canada.
- \$24M in utilities from a higher volume of electrical transmission work driven by the U.S. operations following the acquisition of Xtreme in the third quarter of 2024 and from an increase in battery energy storage system work.
- \$108M in industrial operations driven primarily by decreased activity on mainline pipeline work following the achievement of substantial completion on a large project in the third quarter of 2023, which offset a higher volume of field construction work primarily at wastewater treatment and industrial facilities in western Canada.
- ▼ \$9M in urban transportation solutions primarily from a decrease in light rail transit work in Ontario and Québec as three LRT projects near completion.

New awards higher by \$500M, or 89%, period-over-period

Construction Q3 2024 Results (continued)

Adjusted EBITDA² up by **\$98M** period-over-period and Operating Profit up by **\$88M** period-over-period

- Lower negative gross profit from the four fixed price legacy projects of \$nil in Q3 2024 compared to negative gross profit of \$91.1M in Q3 2023.³
- ▼ Lower gross profit margin in Civil operations.
- A Higher operating profit in nuclear operations from higher volume and gross profit margin.
- ▲ Higher gross profit margin in urban transportation solutions.
- Higher operating profit in industrial from higher gains on sale of equipment (\$5.2M).
- ▼ Higher MG&A reflecting more typical personnel costs in MG&A
- Higher acquisition-related transaction costs of \$5.6M mostly in utilities, and amortization expense of \$2.9M in utilities related to acquisition-related intangible assets from the Xtreme transaction

Operating Profit (\$M)

 This is a non-GAAP financial measure. Refer to page 2 in this presentation.
 See Section 5 "Recent Developments", Section 10.2 "Contingencies" in the Q3 2024, MD&A and Section 13 "Risk Factors" in the 2023 Annual MD&A.
 Excludes impacts of legacy projects and divestitures. Refer to page 25 for further information and reconciliation.

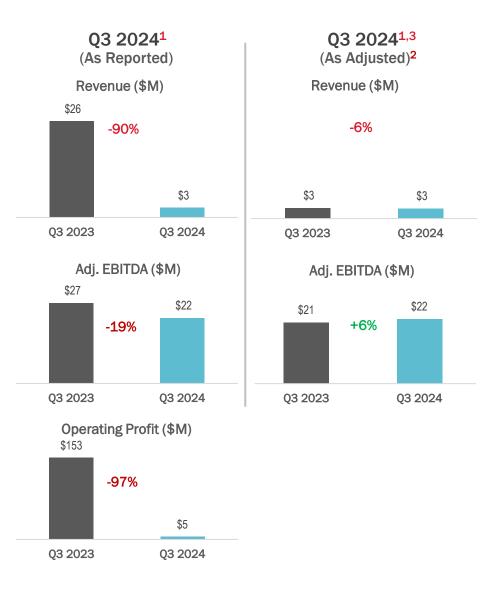

Concessions Q3 2024 Results

Revenue down by **\$23M**, or **90%**, period-over-period

Primarily due the sale of 49.9% interest in Bermuda airport concessionaire. Subsequent to the closing of the transaction during Q3 2023, Aecon's 50.1% concession participation is accounted for using the equity method.

Adjusted EBITDA² down by **\$5M**, or **19%**, period-over-period and **Operating Profit down** by **\$148M**, or **97%**, period-over-period

Lower operating profit was primarily due to gains related to the sale in the third quarter of 2023 of a 49.9% interest in the Bermuda International Airport concessionaire which resulted in a periodover-period decrease in gains on sale of \$139.0M. Reported operating results from the Skyport operations were also negatively impacted by the 49.9% reduction in Aecon's ownership interest in Skyport and from the use of the equity method of accounting in 2024 where operating results for Aecon's interest in Skyport were also reported net of financing costs and income taxes. Operating profit in the segment was also impacted by a decrease in management and development fees from the balance of the concessions operations.
