

Investor Presentation

FIRST QUARTER 2021 | AECON GROUP INC. (TSX: ARE)

AECON

Forward-Looking Information

The information in this presentation includes certain forward-looking statements. Although these forward-looking statements are based on currently available competitive, financial and economic data and operating plans, they are subject to risks and uncertainties. In addition to events beyond Aecon's control, there are factors which could cause actual or future results, performance or achievements to differ materially from those expressed or inferred herein including risks associated with an investment in the common shares of Aecon and the risks related to Aecon's business. Such factors include but are not limited to: the timing of projects, unanticipated costs and expenses, the ability to recognize and adequately respond to climate change concerns or public and governmental expectations on climate matters, Aecon's assessment of the risks and opportunities related to its industry's transition to a lower-carbon economy, Aecon's expectations regarding legal proceedings to which Aecon is a party, general market and industry conditions and operational and reputational risks, including large project risk and contractual factors and risks relating to the COVID 19 pandemic.

Risk factors are discussed in greater detail in Section 13 – “Risk Factors” in the 2020 Annual MD&A dated February 25, 2021 and in the Annual Information Form filed on February 26, 2021, both of which are available on the System for Electronic Document Analysis and Retrieval (“SEDAR”) at www.sedar.com. Other important factors, in addition to those discussed in this document, could affect the future results of Aecon and could cause its results to differ materially from those expressed in any forward-looking statements.

Forward-looking statements may include, without limitation, statements regarding the operations, business, financial condition, expected financial results, performance, prospects, ongoing objectives, strategies and outlook for Aecon. Forward-looking statements may in some cases be identified by words such as “will”, “plans”, “believes”, “expects”, “anticipates”, “estimates”, “projects”, “intends”, “should” or the negative of these terms, or similar expressions. Except as required by applicable securities laws, forward-looking statements speak only as of the date on which they are made and Aecon undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

Non-GAAP and Supplementary Financial Measures

The presentation contains certain non-GAAP and supplementary financial measures, as well as non-GAAP ratios to assist readers in understanding the Company's performance (GAAP refers to Canadian Generally Accepted Accounting Principles). These measures do not have any standardized meaning and therefore are unlikely to be comparable to similar measures presented by other issuers and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Management uses these non-GAAP and supplementary financial measures, as well as certain non-GAAP ratios to analyze and evaluate operating performance. Aecon also believes the financial measures defined below are commonly used by the investment community for valuation purposes, and are useful complementary measures of profitability, and provide metrics useful in the construction industry.

Throughout this presentation, the following terms are used, which are not found in the Chartered Professional Accountants of Canada Handbook and do not have a standardized meaning under GAAP: “Adjusted EBITDA”, “Equity Project EBITDA”, “Backlog”, “Adjusted EBITDA margin”, “Gross Profit Margin”.

Refer to Section 4 “Non-GAAP and Supplementary Financial Measures” in the Company's Q1 2021 Management's Discussion and Analysis (“MD&A”) available through SEDAR at www.sedar.com for the definitions of non-GAAP and supplementary financial measures as well as non-GAAP ratios used in this presentation.

Refer to Section 9 “Quarterly Financial Data” in the Company's Q1 2021 MD&A for a quantitative reconciliation of the above-mentioned measures to the most comparable financial measures presented in the primary financial statements of the Company.

Why Invest in Aecon?

THE #1 CANADIAN INFRASTRUCTURE COMPANY

Unprecedented Demand

\$5.9B

BACKLOG[@]

\$40B+

ACTIVE BID PIPELINE

- Record level of infrastructure investment underway across Aecon's focus areas
- Government investment in infrastructure is a key source of economic stimulus as part of COVID-19 recovery plans
- Strong private sector, multi-year capital programs
- Positive population and immigration dynamics driving long-term, sustainable demand
- Partner of choice for international and domestic players
- Strong track record of growth and margin improvement

Diversified & Resilient Business Model

\$3.7B

TOTAL REVENUE^{*}

\$267M

CONSTRUCTION EBITDA^{*+@}

\$37M

CONCESSIONS EBITDA^{*+@}

- Diversified by geography, sector, contract size and type in Construction segment
- Over 900 discrete projects typically underway with average project size <\$25 million
- Valuable and growing Concessions portfolio
- Solid recurring revenue base adds further stability and growth opportunity to business mix
- ~36% of TTM revenue from unit price/cost plus contracts
- Well positioned in growth markets linked to sustainability
- Financial position, liquidity and capital resources remain strong to support growth and reduce risk

Sustainable Shareholder Value Creation

13%

10 YEAR DIVIDEND CAGR[^]

23%

5 YEAR EPS CAGR[#]

25%

5 YEAR TOTAL SHAREHOLDER RETURN[&]

- Disciplined, balanced and diverse capital allocation program and strategy
- History of consistent dividend increases
- Growth in Concessions portfolio provides future value creation options
- Focused on sustainability with a 30% GHG reduction target by 2030 and a net zero target by 2050
- Over 50% of 2020 revenue tied to sustainability projects[~]
- Current valuation multiple provides attractive upside potential

^{*} Q1 2021 Trailing Twelve Months ("TTM")

⁺ Before corporate costs and eliminations

[^] Compound Annual Growth Rate ("CAGR") of annual dividend from 2012 to 2021

[#] CAGR of full year Diluted EPS from 2015 to 2020

[&] December 31, 2015 to December 31, 2020

[@] This is a non-GAAP financial measure. Refer to Section 4 "Non-GAAP And Supplementary Financial Measures" in the Company's Q1 2021 MD&A.

[~] Sustainability projects help to preserve and protect the environment, but also help to preserve the ability of society to sustain itself. Including but not limited to, projects that: reduce emissions, support the transition to a net-zero economy, support clean water use and conservation and reduce/recycle waste.

Major Projects & Concessions Provide Stability

Project Timeline (Starting from 2021)

P3 Concessions*

Bermuda Airport

US\$274 million; construction started 2017 and completed 2020; 100% equity stake and 30 year concession began in 2017

Waterloo LRT

\$583 million; construction started 2014 and completed 2019; 10% equity stake and 30 year concession began in 2019

Eglinton LRT

\$5.3 billion; construction started 2015 and target completion under discussion; 25% equity stake and 30 year concession post construction

Finch West LRT

\$2.5 billion; construction started 2018 and target completion 2023; 33% equity stake and 30 year concession post construction

Gordie Howe Bridge

\$5.7 billion; construction started 2018 and target completion 2024; 20% equity stake and 30 year concession post construction

Other Major Projects*

Darlington Nuclear Refurbishment

\$2.75 billion; 10 year project started 2016

Pattullo Bridge Replacement

\$968 million; 5 year project started 2020

REM LRT Montreal

\$6.5 billion; 6 year project started 2018

Site C Generating Station & Spillways Hydro Project

\$1.6 billion; 5 year project started 2018

HWY 401 Expansion

\$640 million; 3 year project started 2019

Coastal Gas Link Pipeline

\$526 million; 3 year project started 2019

Bruce Power Nuclear Refurbishment

\$475 million; 2 year project started 2020; the first of six units for fuel channel and feeder replacement (FCFR). Aecon consortium has a Preferred Supplier Agreement with Bruce Power for subsequent five units; 10–12 year total project duration; Aecon JV was also awarded first three of six steam generator unit replacements.

Unparalleled Demand Aligned with Aecon's Strengths[^]

Federal Infrastructure Programs

\$180B | Invest in Canada Plan[#]

12-year Federal investment plan 2016 to 2028
\$15B for public transit projects between 2021 and 2028 with \$6B available from 2021 and \$3B per year in 2026, 2027 and 2028
\$2.75B investment in Universal Broadband Fund over six years
\$2.2B one-time investment in roads, bridges, water and wastewater plants in municipalities and First Nations communities
\$8B investment in the Net Zero Accelerator over seven years

\$15B | Invest in Climate Action^{*}

\$35B | Canada Infrastructure Bank

\$10B investments between 2020 and 2023 announced in October 2020 including i) \$1.5B for Zero Emission Buses ii) \$2.5B for Clean Power iii) \$2B for Broadband iv) \$1.5B for Agriculture infrastructure and v) \$500M for project acceleration to expedite due diligence and early works construction
\$1.7B for Lake Erie Connector underwater transmission project between Ontario and Pennsylvania

\$7.6B | BC Budget

Transportation investment over 3 years from 2021 and \$147M for broadband

\$6B | Alberta Budget

Transportation and public transit investment over 3 years from 2020 plus investment in Edmonton and Calgary LRTs; \$1.3B accelerated capital maintenance and renewal budget for 2021; \$221M funding for municipalities for transportation and water

\$101B | Quebec Budget

Investment in road and transit infrastructure over 10 years from 2021 including \$49B investment in road network

\$86B | Ontario Budget

Transit and Transportation investment over 10 years from 2020, including \$21B in road and highways and \$62B in transit.
\$2.8B additional investment for broadband infrastructure

\$0.5B | Manitoba Budget

Transportation investment in 2021

\$0.6B | Saskatchewan Budget

Transportation investment in 2021

Strong Public and Private End Market Demand

Diversified series of pursuits by sector and geography | Opportunities strongly correlate with Aecon's experience, expertise and sustainability goals

\$40+ Billion*

& Companies include: Fortis Inc., Emera Inc., Hydro One Ltd., Canadian Utilities Ltd., Enbridge Gas. Excludes nuclear power.

Strong Multi-Year Capital Programs^

PRIVATE SECTOR DEMAND

Canadian Telecom Capex Programs

Canadian Gas & Power Utilities Capex&^

Well Positioned to Capture Emerging Growth in Key Sectors

Utilities and Industrial

- Extensive capabilities in various stages of the value chain levered towards building the resilient, low carbon and connected infrastructure of tomorrow
- Nationwide presence and long-term relationships with key clients in areas of telecommunications, gas and electric utilities, alternative energy and industrials
- Opportunity to lead in sustainability and technological advancements

Grid Modernization/Hardening

Geothermal & District Energy

Fibre and Broadband

Telecom Infrastructure & 5G

Electricity Distribution/
Transit Electrification

Water Distribution &
Management

Hydrogen & Renewable
Natural Gas

Carbon Capture and Storage

Nuclear

- Current multi-year programs with OPG and Bruce Power
- Future opportunities in small modular reactors and waste management
- US growth from current niche platform

Nuclear Waste Management

Refurbishment &
Decommissioning

Maintenance &
Fabrication Services

Small Modular Reactors

Valuable Concessions Portfolio

Bermuda L.F. Wade International Airport

100% equity ownership and concession

New terminal opened on December 9, 2020

30 year operations and maintenance concession to 2047

Global Air Passenger Departure Forecast[^]

Bermuda and key US and UK source markets' vaccination timelines are ahead of the global average

State-of-the-art airport allows for best-in-class health protocols and US pre-clearance for safe and predictable travel experience

More stable domestic and corporate travel base with less than 50% of traffic linked to tourism specifically

2021 DFNI Americas Award for the Most Supportive Approach to Retail for Skyport

Canadian LRTs

- 30 year maintenance concessions on Eglinton, Finch and Waterloo LRTs
- Availability-based payments with no revenue risk from provincial transit counterparties
- Proven team currently bidding on Canadian transit projects in procurement

Gordie Howe International Bridge

- 30 year operations and maintenance concession
- Availability-based payments with no revenue risk from Canadian Federal Government
- **P3 Bulletin GOLD award** for 2020 ESG Performance of the Year

Concessions Leadership in Infrastructure Development

- ✓ Proven capability to develop, construct, finance and operate diverse infrastructure concessions in Canada and internationally
- ✓ Solutions-based, partner of choice to international construction firms, governments and financial institutions
- ✓ Leader in technology and systems integration in transit, tolling, airport infrastructure and innovative financing models
- ✓ Provides for stable, long-term cash flow opportunity with flexibility to monetize interests for future development projects
- ✓ Opportunity to build on expertise to target innovative development and concession opportunities in industrial, power, cleantech, and other related markets

[&] Calculations based on face value of convertible debentures

[♦] Net Working Capital is a Capital Management measure that management uses to analyze and evaluate Aecon's liquidity and its ability to generate cash to meet its short-term financial obligations. Management also believes this measure is commonly used by the investment community for valuation purposes. Refer to page 22 in this presentation for the composition of Net Working Capital and a quantitative reconciliation to the most comparable financial measure.

^{*} Net JV Impact represents the difference between Equity Project EBITDA included in Adjusted EBITDA (Equity Project EBITDA as defined in Aecon's Q1 2021 MD&A) and distributions from projects accounted for using the equity method.

[~] Excludes \$30 million purchase of Voltage Power in February 2020 and final \$12 million proceeds from sale of Contract Mining business in May 2020

[#] Free Cash Flow is a Capital Management measure that management uses to analyze and evaluate the cash generated after taking into consideration cash outflows that support its operations and maintain its capital assets. Management also believes this measure is commonly used by the investment community for valuation purposes. Refer to page 22 in this presentation for a quantitative reconciliation to the most comparable financial measure.

[⊕] This is a non-GAAP financial measure. Refer to Section 4 "Non-GAAP And Supplementary Financial Measures" in the Company's Q1 2021 MD&A.

Diverse Capital Allocation Program

Focus on **Profitable Growth** and **Risk Management** to drive **Shareholder Returns**

Profitable Growth

- Support capital expenditures and investments in new projects, technology and equipment
- Investment in value creating Concessions portfolio
- Tuck-in acquisitions to expand capabilities and geographic end markets

Preserve Financial Strength

- Strong and liquid balance sheet to support pursuit and execution of major projects and concessions
- Lead joint ventures, attract the right partners and achieve desired project credit ratings
- Demonstrate resiliency and capacity to absorb working capital and risk management requirements

Enhance Shareholder Returns

- Dividends have increased 9 of the last 10 years with 13% CAGR^{*}
- Diluted Earnings per Share has grown at 23% CAGR over the last 5 years[#]
- 5 year Total Shareholder Return of 25%[@]

Balanced and Diversified Capital Allocation

Capital Expenditures & Investments[&]

\$472 million over the last 5 years⁺

Dividends

\$160 million over the last 5 years⁺

M&A >\$40 million over the last three years for five strategic, tuck-in acquisitions

NCIB

>\$23 million between November 2019 and March 2020

Outlook

- Aecon's overall outlook for 2021 remains positive despite the ongoing background of COVID-19. Backlog, recurring revenue programs, and the pipeline of bidding opportunities for new work, remain at strong levels.
- The Company expects that demand for its services will remain healthy for the foreseeable future as the federal government and provincial governments across Canada have identified investment in infrastructure as a key source of stimulus as part of economic recovery plans.
- An Aecon consortium has been named as first negotiations proponent for the Eglinton Crosstown West Extension Advance Tunnel project in Toronto, which is expected to be awarded in the second quarter of 2021 upon closing of related project financing, and Aecon is also pre-qualified on a number of large project bids due to be awarded during 2021 and 2022.
- Recurring revenue in the utilities sector in particular is expected to grow based on the capital investment plans of a number of key clients, particularly in telecommunications and power-related work.
- Despite this overall positive outlook, the COVID-19 pandemic is expected to continue to have some impact in moderating overall revenue and profitability growth expectations in 2021, either due to client decisions related to schedules or operating policies or due to broader government directives to modify work practices to meet relevant health and safety standards.
- In addition, certain projects that were expected to be available to Aecon to bid on to secure new revenue have been delayed. A small number of construction projects have been impacted by cases of COVID-19 as infections in the community have increased across Canada, which has resulted in an increase in the number of employees quarantining and self-isolating as a precautionary measure.
- While the primary impact from COVID-19 in Canada will be to reduce revenue in certain areas of Aecon's Construction segment until normal operations fully resume, there is no guarantee that all related costs will be recovered and therefore it is possible that future project margins could be impacted as well.
- In the Concessions segment, commercial operations at the Bermuda International Airport continue to be challenged by COVID-19 related travel restrictions, which have significantly impacted the aviation industry. The aviation industry is not expected to improve meaningfully until significant portions of the global population have been vaccinated and existing travel restrictions are lifted.
- Construction continues on a number of projects that ramped up in 2019 and 2020, the level of backlog and new awards during 2020, and the strong demand environment for Aecon's services, including recurring revenue programs, all subject to the unknown impacts of COVID-19 going forward.

Building Better Together

We actively manage and improve our own environmental, social and governance performance & identify opportunities in sustainability that drive growth for the business

Principles

Environmental Leadership	Social Contribution	Responsible Governance

^{*} This is a non-GAAP financial ratio. Refer to Section 4 "Non-GAAP And Supplementary Financial Measures" in the Company's Q1 2021 MD&A.

Construction Q1 2021 Results

Revenue up by \$9M, or 1%, quarter-over-quarter

- ▲ \$42M in Nuclear operations driven by higher volume of refurbishment work in Ontario
- ▲ \$9M in Utilities operations from increased volume of gas distribution and telecommunication work
- ▼ \$34M in Civil operations and Urban Transportation Systems driven primarily by a decrease in roadbuilding construction work
- ▼ \$8M in Industrial operations largely due to decreased activity on mainline pipeline work in western Canada

Adjusted EBITDA[®] up by \$5M, or 29%, quarter-over-quarter

- ▲ Higher volume and gross profit margin in Utilities operations
- ▲ Higher volume in Nuclear operations
- ▲ Higher profit in Civil operations and Urban Transportation Systems
- ▼ Lower volume and gross profit margin in Industrial operations

New awards lower by \$696M, or 78%, quarter-over-quarter

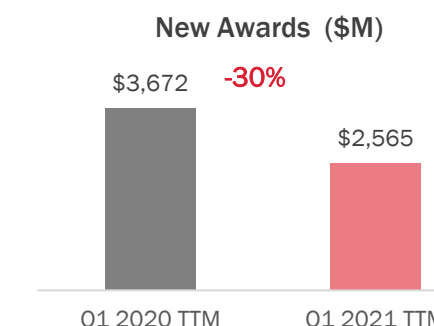

- ▼ Lower awards in 2021 in Civil operations due to the award in the first quarter of 2020 for the Pattullo Bridge Replacement Project (\$465M) in British Columbia

In Q1 2021, named preferred proponent on Eglinton Crosstown West Extension (ECWE) Advance Tunnel project and expect to add to new awards/backlog in Q2 upon financial close

Q1 2021^{*}

Q1 2021 TTM^{*}

Concessions Q1 2021 Results

Revenue down by \$16M, or 59%, quarter-over-quarter

Primarily due to decreased construction activity related to the Bermuda International Airport Redevelopment Project and a decrease in the volume of commercial flight operations compared to the same period last year for reasons related to the COVID-19 pandemic.

Adjusted EBITDA[®] down by \$4M, or 29%, quarter-over-quarter

Primarily related to the Bermuda International Airport Redevelopment Project and the above noted COVID-19 impact on airport operations
