

LOCKERBIE & HOLE

For more than a century, Lockerbie & Hole has been helping to build Canada, featuring an exceptional project portfolio that ranges from office towers to industrial complexes to municipal wastewater plants.

As a renowned project manager and mechanical contractor, Lockerbie & Hole blends highly automated fabrication and construction practices with advanced technical, reporting and communication systems to manage mechanical construction projects of all types, sizes and degrees of complexity.

Lockerbie & Hole is one of the country's pre-eminent contracting firms, offering a proud tradition of quality work, client satisfaction and a Safety First culture in:

- // Commercial construction
- // Institutional construction
- // Water and wastewater facilities
